

# Multi-Tiered Systems of Support

## ACADEMICS:

**Tier 1:** Classroom teachers utilize several research-based activities provided through the given curriculum and textbooks to assist students at varying levels.

**Tier 2:** Leveled interventions are available within the Math Expressions materials and the Leveled Literacy Intervention (LLI) that are used to help students needing additional support.

**Tier 3:** The Tier 3 Interventionist use Math Recovery, which is an intensive math support program for students in grades K-4, and Foundations, Wilson Phonics, and Reading A-Z for reading support.

## BEHAVIOR:

**Tier 1:** Classroom teachers utilize school-wide behavior expectations. Specific charts are made for students needing extra support.

**Tier 2:** Programs available for students needing additional support beyond the classroom are: Check In/Check Out, Mentoring, and specific guidance groups.

**Tier 3:** When students need more specific assistance with behavior, a functional behavior assessment will be done to help identify specific strategies to help us build student success.
