

SCHOOL DISTRICT OF WAUPACA

SERIES 100 BOARD OF EDUCATION

CODE:110

EDUCATIONAL PHILOSOPHY

The members of the Board of Education and the staff of the School District of Waupaca believe that the school is an institution established by the American people to develop the intelligence and skills of its youth so that they can contribute to American culture. It recognizes each individual is important; each has his own interest, abilities, and needs; promotion of maximum development of the abilities and personality of each pupil is vital; and all are entitled to equal educational opportunity. Each individual also has obligations to society. Hence, the school provides for the pupil's acquiring certain common skills, information, and attitudes essential to group living. School is preparation for life; it is group living where one experiences friendliness, cooperativeness, competition, responsibility, intelligent citizenship, and opportunity for leadership in both social and academic areas. These goals can be accomplished only by cooperative planning of pupils, parents, faculty and the Board of Education.
