## Waupaca High School 2024-2025 Course Offerings

# Waupaca High School Graduation Requirements 

Graduation Requirements<br>A total of 24 credits are required for graduation including:<br>4 credits English<br>3 credits Math<br>3 credits Science<br>3 credits Social Studies<br>1.5 credits Physical Education<br>.5 credits Health (may be completed grades 7-12)<br>.5 credits Computer Studies<br>8.5 credits Electives<br>Pass Wisconsin State Civics Exam

## AP,CAPP \& Dual Credit Course Offerings

Agriculture Courses

- Vet Tools \& Technology (AGR30)
- Introduction to Horticulture (FVTC) (AGR41)

Art Courses

- AP Studio Art (ART17.S1 \& S2)

## Business \& Computer Courses

- Automated Manufacturing \& Programming (COM09)

## English Courses

- Writing 101 Composition (ENG07)
- Communications 111 (ENG08)

## Math Courses

- AP Statistics (MAT05.S1 \& S2)

## Science Courses

- AP Physics (SCI42.S1 \& S2)

Social Studies Courses

- AP Human Geography (SOC23.S1 \& S2)
- AP U.S. History (SOC04.S1 \& S2)

Family \& Consumer Science

- Child Ed:Health, Safe \& Nutri. (FCE17)

## Technology Education Courses

- MLR 1 (Maintenance and Light

Repair) (TEC32)

- Gas Metal Arc Welding Techniques 1 FVTC (TEC70)
- Advanced Welding \& Fabrication (TEC71)
- Ecology \& Outdoor Management Issues (FVTC) (AGR52)
- Large Animal Care (AGR31)
- AP Computer Science A (COM08.S1 \& S2)
- English 214 American Literature (ENG09)
- Appreciation of the Drama 161 (ENG10)
- AP Calculus AB (MAT06.S1 \& S2)
- AP Calculus BC (MAT07.S1 \& S2)
- AP Biology (SCl25.S1 \& S2)
- AP Chemistry (SCl35.S1 \& S2)
- AP European History (SOC21.S1 \& S2)
- AP Psychology (SOC91.S1 \& S2)
- Child Growth \& Development (FCE18)
- Machining (TEC54)
- Woodworking 101 (TEC83)
- Metalworking Foundations (TEC50)
- Engineering Drawing/AutoCAD (TEC18)
- Product Design Skills (TEC45)
- Intro to Metals Processes (TEC51)

| Course Title | Grade Level | Credit |
| :--- | :---: | :---: |

## Agriculture

| Agriscience 2 (AGR20) (formerly Explore Agriscience) | 9-12 | 0.5 |
| :---: | :---: | :---: |
| Agriscience 1 (AGR21) (formerly Discover Agriscience) | 9-12 | 0.5 |
| Food Products \& Processes (AGR05) | 10-12 | 0.5 |
| Vet Tools \& Technology (AGR30) (formerly Vet Care Tools and Techniques) | 10-12 | 0.5 |
| Large Animal Science (AGR31) (formerly Large \& Small Animal Care) | 10-12 | 0.5 |
| Landscape \& Floral Design (AGR40) | 10-12 | 0.5 |
| $\frac{\text { Introduction to Horticulture (FVTC) (AGR41) }}{\text { (formerly Greenhouse Management, Gardening \& Hydroponics (FVTC) }}$ | 10-12 | 0.5 |
| Advanced Horticulture (AGR43) <br> formerly Advanced Greenhouse Operations \& Hydroponics) | 10-12 | 0.5 |
| Forestry \& Taxidermy (AGR50) <br> (formerly Forestry, Taxidermy, Large \& Small Game Animals) | 10-12 | 0.5 |
| Wildlife Management (AGR51) (formerly Aquaculture \& Wildlife Management) | 10-12 | 0.5 |
| Ecology \& Outdoor Management Issues (FVTC) (AGR52) | 11-12 | 0.5 |
| Outdoor Recreation \& Natural Resources (AGR53) | 11-12 | 0.5 |
| Art |  |  |
| Fundamentals of Art \& Design (ART01) | 9-12 | 0.5 |
| 2D Art (ART08) | 10-12 | 0.5 |
| Ceramics (ART04) | 10-12 | 0.5 |
| 3D Art (ART09) | 10-12 | 0.5 |
| Drawing (ART13) | 10-12 | 0.5 |
| Advanced 2D Art (ART10) | 10-12 | 0.5 |
| Advanced Ceramics (ART041) | 10-12 | 0.5 |
| Advanced 3D Art (ART11) | 10-12 | 0.5 |
| Advanced Drawing (ART131) | 10-12 | 0.5 |
| AP Studio Art (ART17.S1 \& ART17.S2) | 10-12 | $\begin{gathered} 1.0 \\ \text { (0.5 per semester) } \end{gathered}$ |
| Business Education |  |  |
| Keyboarding I(BUS02) | 9-12 | 0.5 |

| Keyboarding II (BUS03) | $9-12$ | 0.5 |
| :--- | :--- | :--- |
| Introduction to Business (BUS18) | $9-12$ | 0.5 |
| Entrepreneurship (BUS01) | $10-12$ | 0.5 |
| Personal Finance (BUS14) | $10-12$ | 0.5 |
| Accounting I (BUS19) | $10-12$ | 0.5 |
| Accounting II: Merchandising Business (BUS20) | $10-12$ | 0.5 |
| Personal Law_(BUS11) | $11-12$ | 0.5 |
| Accounting III (BUS21) | $11-12$ | 0.5 |

Computer Science (courses may be offered as on-line and independent)

| Digital Literacy(com02) | $9-12$ | 0.5 |
| :--- | :--- | :---: |
| Computer Graphics \& Desktop Publishing (COM03) | $10-12$ | 0.5 |
| Programming I (COM04) | $10-12$ | 0.5 |
| Programming لU(com05) | $10-12$ | 0.5 |
| Automated Manufacturing \& Programming (COM09) | $10-12$ | 0.5 |
| Web Design (COM31) | $10-12$ | 0.5 |
| AP Computer Science (com08.S1 \& COM08.S2) | $11-12$ | 1.0 |
|  |  | $(0.5$ per semester) |

## English

| Supplemental ELA (ENG06.S1 \& S2) | $9-12$ | 1.0 <br> $(0.5$ per semester) |
| :--- | :--- | :---: |
| English 9 (ENG021.S1 \& S2) | 9 | 1.0 <br> $(0.5$ per semester) |
| English 10 - Composition (ENG13) | 10 | 0.5 |
| English 10 - Intro to American Lit (ENG14) | 10 | 0.5 |
| Advanced English 10 Composition (ENG18) | 10 | 0.5 |
| Advanced English 10 American Literature (ENG20) | 11 | 0.5 |
| English 11 (ENG04.S1 \& ENG04.S2) | $11-12$ | 12 |
| Creative Writing (ENG11) |  | 1.0 <br> (0.5 per semester) |
| English 12 (ENG05.S1 \& S2) | 12 | 0.5 <br> (can be taken as a semester <br> or year long course) |
| English 101 Composition (ENG07) |  | 0.5 |

| Communications 111 (ENG08) | $11-12$ | 0.5 |
| :--- | :---: | :---: |
| English 214 American Literature (ENG09) | 12 | 0.5 |
| Appreciation of the Drama 161 (ENG10) | $11-12$ | 0.5 |

Family \& Consumer Science

| Teen Life (FCE16) | $9-10$ | 0.5 |
| :--- | :--- | :--- |
| Food Today (FCE21) | $9-12$ | 0.5 |
| Culinary Arts I (FCE19) | $10-12$ | 0.5 |
| Health Occupations 1 (Hoc03) (formerly Intro to Health Occupations) | $10-12$ | 0.5 |
| Independent Living (FCE08) | $11-12$ | 0.5 |
| Early Childhood Education: Health, Safety \& Nutrition (FCE17) | $10-12$ | 0.5 |
| Child Growth \& Development (FCE18) | $10-12$ | 0.5 |
| Culinary Arts II (FCE20) | $11-12$ | 0.5 |
| Health Occupations 2 (Hoco4) <br> (formerly Healthcare, Medicine \& Health Issues) | $11-12$ | 0.5 |

## Health

| Health (PE05) | 9 | 0.5 |
| :---: | :---: | :---: |

## Mathematics

| Supplemental Math (MAT32.S1 \& MAT32.S2) | $9-12$ | 1.0 <br> $(0.5$ per semester) |
| :--- | :--- | :--- |
| Advanced Geometry (MAT39.S1 \& MAT39.S2) | $9-12$ | 1.0 <br> $(0.5$ per semester) |
| Algebra I (MAT35.S1 \& MAT35.S2) | $9-12$ | 1.0 <br> $(0.5$ per semester) |
| Geometry (MAT36.S1 \& MAT36.S2) | $9-12$ | 1.0 <br> $(0.5$ per semester) |
| Algebra II (MAT37.S1 \& MAT37.S2) | $9-12$ | 1.0 <br> $(0.5$ per semester) |
| Transition to Algebra II (MAT31.S1 \& MAT31.S2) | $9-12$ | 1.0 <br> $(0.5$ per semester) |
| AP Statistics (MAT05.S1 \& MAT05.S2) | $11-12$ | 1.0 <br> $(0.5$ per semester) |
| Pre Calculus (MAT38.S1 \& MAT38.S2) | $9-12$ | 1.0 <br> $(0.5$ per semester) |
| AP Calculus AB (MAT06.S1 \& MAT06.S2) |  | 1.0 <br> $(0.5$ per semester) |

| AP Calculus BC (MAT07.S1 \& MAT07.S2) | 9-12 | $\begin{gathered} 1.0 \\ \text { (0.5 per semester) } \end{gathered}$ |
| :---: | :---: | :---: |
| Music |  |  |
| Concert Band (Mus01.S2 \& MUS01.S2) | 9-12 | $\begin{gathered} 1.0 \\ \text { (0.5 per semester) } \end{gathered}$ |
| Mixed Choir (MUS04.S1 \& MUS04.S2) | 9-12 | $\begin{gathered} 1.0 \\ \text { (0.5 per semester) } \end{gathered}$ |
| Wind Ensemble (MUS02.S1 \& MUS02.S2) | 10-12 | $\begin{gathered} 1.0 \\ \text { (0.5 per semester) } \end{gathered}$ |
| Treble Clef Choir (MUS03.S1 \& MUS03.S2) | 10-12 | $\begin{gathered} 1.0 \\ (0.5 \text { per semester }) \end{gathered}$ |
| Concert Choir (MUS05.S1 \& MUS05.S2) | 10-12 | $\begin{gathered} 1.0 \\ \text { ( } 0.5 \text { per semester) } \end{gathered}$ |
| Madrigal \& Vocal Jazz Ensemble (MUS06.S1 \& MUS06.S2) | 10-12 | $\begin{gathered} 1.0 \\ \text { (0.5 per semester) } \end{gathered}$ |
| Music Theory (MUS07.S1 \& MUS07.S2) | 11-12 | $\begin{gathered} 1.0 \\ \text { (0.5 per semester) } \end{gathered}$ |

## Plant Science

## Agriculture, Food, \& Natural Resources

Plant Systems Pathway: People who work in the Plant Systems pathway study plants and their growth. This helps producers of food, feed and fiber crops continue to feed a growing population while conserving natural resources and maintaining the environment. Individuals in this pathway also develop ways to improve the nutritional value of crops and the quality of seeds. They use genetic engineering to develop crops resistant to pests and drought.

## Career Opportunities:

Agronomist, Chef, Horticulturist, Designer, Landscaper

Potential to Earn:
Dual Credits

## Course Work in this Career Pathway

## Middle School

Career Exploration
Technical Education
Grades 7 or 8
Courses

## Agriscience 2

Grades 9-12

Capstone
Courses

## Advanced Horticulture

Grades 11-12

## Animal Science

## Agriculture, Food, \& Natural Resources

Animal Systems Pathway: People who work in the Animal Systems pathway work to develop better, more efficient ways of producing and processing meat, poultry, eggs and dairy products. They study genetics, nutrition, reproduction, growth and development of domesticated farm animals. Some individuals inspect and grade livestock food products, purchase livestock or work in technical sales or marketing. Others advise agricultural producers on how to upgrade animal housing facilities properly, lower mortality rates, handle waste matter or increase production of animal products, such as milk or eggs. Animal care workers train, feed, water, groom, bathe and exercise animals. They also clean, disinfect and repair their cages.

## Career Opportunities:

```
Is This You?
```

It am an animal lover
It am science minded I believe in a sustainable future tam interested in an evolving industry

# Course Work in this Career Pathway 

Capstone Courses

## Natural Resources Science

## Agriculture, Food, \& Natural Resources

Natural Resources Systems Pathway: People who work in the Natural Resources Systems pathway perform a variety of tasks from helping to develop, maintain, and manage the forest and natural environment to catching and trapping various types of marine life for human consumption, animal feed, bait and other uses. Forest and rangelands supply wood products, livestock forage, minerals and water; serve as sites for recreational activities; and provide habitats for wildlife. Conservation scientists and foresters manage, develop, use and help protect these and other natural resources.

Career Opportunities:
Forestry, Engineering, Ecologist, Conservation Careers

Potential to Earn: Dual Credits

# AGRISCIENCE <br> Course Descriptions <br> (These courses can apply toward elective credit requirement) 

Course: AGR20 Agriscience 2 (formerly Explore Agriscience) Credit: 0.5
Grade Level: 9-12 Required Course Fee: No Prerequisite(s): No
Description: Agriscience 2 integrates the principles of plant science with essential inquiry skills to provide students with a comprehensive understanding of plant biology and the scientific process. Through a combination of theoretical knowledge and hands-on investigations, students will explore morphological characteristics, energy capture mechanisms, growth regulation, growing media influences, and environmental considerations in plant science. This course aims to foster a deep understanding of plant science principles while developing students' inquiry and scientific skills. By integrating theoretical knowledge with practical applications, students will be prepared to engage in meaningful scientific inquiry and contribute to advancements in plant biology and agriculture.

Course: AGR21 Agriscience 1 (formerly Discover Agriscience) Credit: 0.5
Grade Level: 9-12 Required Course Fee: No Prerequisite(s): No
Description: This course is designed to provide students with comprehensive knowledge and practical skills in food processing and quality assurance. Students will learn the principles of Hazard Analysis and Critical Control Points (HACCP), quality-assurance testing, food product handling, research in food science, labeling compliance, market analysis, regulatory responsibilities, product grading, classification, packaging, and food preservation. This course integrates theoretical knowledge with hands-on experiences, ensuring that students are well-prepared to contribute to the food industry with a focus on safety, quality, and innovation. Through practical applications and industry-relevant projects, students will develop the skills necessary for success in the dynamic field of food processing and quality assurance management.

Course: AGR05 Food Products \& Processes Credit: 0.5 Grade Level: 10-12

## Required Course Fee: No Prerequisite(s): No

Description: This course is designed to provide students with comprehensive knowledge and practical skills in food processing and quality assurance. Students will learn the principles of Hazard Analysis and Critical Control Points (HACCP), quality-assurance testing, food product handling, research in food science, labeling compliance, market analysis, regulatory responsibilities, product grading, classification, packaging, and food preservation. This course integrates theoretical knowledge with hands-on experiences, ensuring that students are well-prepared to contribute to the food industry with a focus on safety, quality, and innovation. Through practical applications and industry-relevant projects, students will develop the skills necessary for success in the dynamic field of food processing and quality assurance management.

Note: This class will be offered in alternating years beginning in 2022-2023; don't miss out on your opportunity!

Course: AGR30 Vet Tools \& Technology (formerly Vet Care Tools and Techniques) Credit: 0.5
Grade Level: 10-12 Required Course Fee: No Prerequisite(s): No

Description: Vet tools and Technology provides a comprehensive exploration of the animal industry, focusing on the diverse products, services, and career opportunities it offers. Students will gain an in-depth understanding of animal body systems and their impact on health, growth, and reproduction. Practical skills in animal health assessments, diagnostic testing, disease prevention, surgical and nonsurgical procedures, and the implementation of animal welfare measures will be emphasized. This course integrates theoretical knowledge with hands-on practical experiences, preparing students for careers in animal science, veterinary care, and related fields. Through a comprehensive curriculum, students will develop the skills and understanding necessary to contribute positively to the health and welfare of animals and the broader animal industry.

Course: AGR31 Large Animal Science (FVTC) (formerly Large \& Small Animal Care) Credit: 0.5
Grade Level: 10-12 Required Course Fee: No Prerequisite(s): No
Description: Large Animal Science (FVTC) course provides a comprehensive exploration of the development of the animal industry, emphasizing the types of products, services, and careers that have emerged from its evolution. Students will delve into the intricacies of animal anatomy and physiology, understanding the relationships between components and systems and their impact on animal production and use. Additionally, the course covers biosecurity measures, feed selection, reproductive systems, genetic advancements, safety procedures, and facility design for efficient and ethical animal production. This course integrates theoretical knowledge with practical applications, preparing students for various careers in the dynamic field of animal industry development and management. Through case studies, hands-on activities, and industry-relevant projects, students will develop the skills necessary to contribute to the ethical, sustainable, and efficient production of animals and animal products.

Course: AGR40 Landscape \& Floral Design Credit: 0.5 Grade Level: 10-12
Required Course Fee: No Prerequisite(s): Agriscience 1 (AGR21) or Agriscience 2 (AGR20) recommended

Description: This course is designed to provide students with a comprehensive understanding of plant propagation techniques, plant production scheduling, and principles of horticultural design. Students will learn and apply proper procedures in budding or grafting, implement production schedules based on environmental conditions, evaluate storage requirements for plants and plant products, and explore the artistic principles and techniques of horticultural design. This course combines theoretical knowledge with practical application, providing students with a well-rounded understanding of plant propagation, production, storage, and horticultural design. Through hands-on activities, design projects, and industry-relevant experiences, students will develop the skills needed to succeed in the dynamic field of horticulture and plant science.

Course: AGR41 Introduction to Horticulture (FVTC) (formerly Greenhouse Management, Gardening \& Hydroponics FVTC)

Credit: 0.5 Grade Level: 10-12 Required Course Fee: No Prerequisite(s): No
Description: Introduction to Horticulture (FVTC) is designed to provide students with a comprehensive understanding of agricultural plant classification and growth management strategies. Students will explore hierarchical classification systems, life cycles, and uses of agricultural plants, as well as implement plans for optimal plant growth, nutrient management, and crop loss reduction. Additionally, the course covers various plant growing systems and horticultural design principles, concluding with insights into professional development within the industry. Through a combination of theoretical knowledge and hands-on activities, this course aims to equip students with the skills and understanding necessary for successful plant management, agricultural design, and career development within the industry.

Course: AGR43 Advanced Horticulture (formerly Advanced Greenhouse Operations \& Hydroponics)

## Credit: 0.5 Grade Level: 10-12 Required Course Fee: No

Prerequisite(s): Introduction to Horticulture (AGR41) or Landscape and Floral Design (AGR40)
Description: Advanced Horticulture focuses on the principles and practices of plant growth management and horticultural design. Students will learn to design, implement, and evaluate plans for maintaining healthy conditions for plant growth. The course covers nutrient management, plant production scheduling, reasons for controlling plant growth, techniques for growth control, crop loss reduction, material selection for design, and principles of horticultural design. Additionally, students will explore various plant growing systems, including greenhouse, hydroponics, and aquaponics. Through a combination of theoretical knowledge and hands-on activities, this course aims to equip students with the skills and understanding necessary for effective plant growth management and creative horticultural design. Students will engage in practical applications, design projects, and discussions to develop a holistic approach to plant care and design principles.

Note: This class will be offered in alternating years beginning in 2022-2023; don't miss out on your opportunity!

Course: AGR50 Forestry \& Taxidermy (formerly Forestry, Taxidermy, Large \& Small Game Animals)

## Credit: 0.5 Grade Level: 10-12 Required Course Fee: No Prerequisite(s): No

Description: Forestry and Taxidermy provides students with a comprehensive understanding of natural resources, focusing on sustainable management practices and conservation strategies. Students will explore the uses of tree species, techniques for harvesting forest products, and the identification of predominant species. Students will engage in land surveying for resource location, invasive species management, disease reporting, and the development of timber stand improvement plans. Additionally, the course covers safety practices, the handling of biohazard materials, wildlife and aquatic species harvesting in the art of taxidermy. Through a combination of theoretical knowledge and practical application, this course aims to equip students with the skills necessary for responsible and sustainable natural resource management and conservation. Students will engage in hands-on activities, fieldwork, and case studies to develop a holistic understanding of managing and preserving natural resources. Students are required to acquire their own taxidermy specimens which will be discussed in class.

Note: This class will be offered in alternating years beginning in 2022-2023; don't miss out on your opportunity!

Course: AGR51 Wildlife Management (formerly Aquaculture \& Wildlife Management) Credit: 0.5
Grade Level: 10-12 Required Course Fee: No Prerequisite(s): No
Description: Wildlife management provides students with a comprehensive understanding of environmental service systems, water characteristics influencing the biosphere, and issues related to the conservation and preservation of natural resources. Students will explore Wisconsin laws associated with environmental service systems, conduct surveys to identify predominant species, research and debate current conservation issues, and compare the interdependence of organisms within ecosystems. Additionally, the course covers wildlife species comparison, aquatic field inventory experiences, methods to improve marine and coastal resources, watershed functions, factors influencing invasive species, and techniques for harvesting wildlife and aquatic species. Through a combination of theoretical knowledge, field experiences, and debates, this course aims to provide students with a well-rounded understanding of environmental service systems and natural resource conservation. Students will engage in hands-on activities, research projects, and discussions to develop critical thinking and problem-solving skills in the context of environmental and conservation
issues.

Note: This class will be offered in alternating years beginning in 2022-2023; don't miss out on your opportunity!

Course: AGR52 Ecology \& Outdoor Management Issues (FVTC) Credit: 0.5
Grade Level: 11-12 Required Course Fee: No
Prerequisite(s): Forestry \& Taxidermy (AGR50) or Wildlife Management (AGR51)
Description: Ecology and outdoor management issues is designed to provide students with a thorough understanding of natural resource management and the ecological principles governing it. Students will explore the interrelationships between natural resources and humans necessary for effective management activities in natural environments. The course covers the comparison of trees, herbaceous plants, and their ecological roles. Additionally, students will differentiate between various ecological interactions, develop technical skills required by natural resource technicians, enhance communication abilities, graph population dynamics, understand succession processes, and gain comprehensive knowledge for managing natural resource systems. Through a combination of theoretical knowledge, hands-on experiences, and practical applications, this course aims to equip students with the skills and understanding necessary for effective natural resource management. Students will engage in fieldwork, laboratory exercises, and case studies to develop a holistic perspective on the ecological dynamics of natural environments and the principles guiding their sustainable management.

## Course: AGR53 Outdoor Recreation \& Natural Resources Credit: 0.5 Grade Level: 11-12

Required Course Fee: No
Prerequisite(s): Forestry \& Taxidermy (AGR50) and Wildlife Management (AGR51)
Description: Outdoor recreation and natural resources offer a comprehensive exploration of outdoor recreation and the sustainable management of natural resources. Students will investigate the consequences of climate change on both a local and global scale, focusing on the specific impacts on Wisconsin. The course delves into the complexities of pollution, solid waste management, water treatment, and natural resource laws, offering practical insights into mitigation strategies and resource improvement techniques. This course integrates scientific knowledge with practical applications, preparing students to address real-world environmental challenges. Through a combination of theoretical insights, case studies, and hands-on activities, students will develop a holistic understanding of scope of outdoor recreation and natural resource management in the state of Wisconsin.

## Art

The Waupaca High School Visual Arts department offers its students many opportunities to develop their creativity and skills in art. Fundamentals of Art is designed to provide a foundation for advanced courses. Emphasis is placed on a variety of media experiences including: drawing, painting, ceramics, and sculpture. After successful completion, students move to intermediate courses based on their I interests; these include: 2D Art, 3D Art, Ceramics and Drawing. In all courses, students develop their skills, learn and practice incorporating elements and principles of design, art studio habits, social, cultural and historical awareness, and critiquing artwork. As a junior or senior, if students have successfully completed at least 3-4 art courses and have approval from the teacher, they can take AP Studio Art. This is a year-long course where students continue to develop the skills that artists and designers use; they will create a portfolio of work which they submit to the College Board for an AP score and possible college credit. Whether students are interested in pursuing art as a career, or a hobby, the visual arts department has something for everyone.

# ART <br> Course Descriptions <br> (These courses can apply toward elective credit requirement) 

## Course: ART01 Fundamentals of Art \& Design Credit: 0.5 Grade Level: 9-12

Required Course Fee: No Prerequisite(s): No
Description: Fundamentals of Art \& Design is an introductory art course where you will explore the basics of the elements \& principles of art and design. You will learn about a variety of different media such as drawing, painting, printmaking, ceramics, and sculpture. General art processes and techniques needed for future art courses will be practiced. You will also conduct research to learn about art history and contemporary artists, complete sketchbook assignments, and critique artwork. This course sets the foundation, and is a prerequisite, for all other art courses.

Course: ART08 2D Art Credit: 0.5 Grade Level: 10-12 Required Course Fee: No
Prerequisite(s): Fundamental of Art \& Design (ART01)
Description: This course focuses on a wide variety of different two dimensional art media. 2D art includes any media which is applied to a flat surface such as watercolor, acrylic, collage, ink, marker, pencil, charcoal, pastel, printmaking, digital art, mixed media, etc. Emphasis is placed on basic drawing skills followed by allowing students to try out a variety of different media, tools and materials in new and creative ways. Sketchbook assignments in this course are designed to help investigate, practice, experiment, plan, and reflect on your artwork.

Course: ART04 Ceramics Credit: 0.5 Grade Level: 10-12 Required Course Fee: No
Prerequisite(s): Fundamental of Art \& Design (ART01)

Description: This course focuses on a wide variety of different three-dimensional art media. 3D art includes any media which is constructed into sculptural forms and viewed from all sides (not 2D or flat), such as clay, metal, wire, paper, cardboard, found objects, plaster, leather, glass, wood, fabric, etc. Emphasis is placed on learning basic sculptural skills and experimenting with a wide variety of media, tools and materials in creative ways. Sketchbook assignments in this course are designed to help investigate, practice, experiment, plan, and reflect on your artwork.

Course: ART09 3D Art Credit: 0.5 Grade Level: 10-12 Required Course Fee: No
Prerequisite(s): Fundamental of Art \& Design (ART01)
Description: This course specializes in 3D sculpture techniques and media (other than clay) with an integration of art history. A range of materials including metal, wire, paper, cardboard, found objects, leather or plaster may be used to create 3-dimensional artworks. A heavy emphasis is placed on working with metal to create jewelry and similar projects. Other projects may include the use of paper or cardboard, mobiles, casting, and masks. Sketchbook assignments in this course are designed to help investigate, practice, experiment, plan, and reflect on your artwork

Course: ART13 Drawing Credit: 0.5 Grade Level: 10-12 Required Course Fee: No
Prerequisite(s): Fundamental of Art \& Design (ART01)
Description: This course specializes in various drawing media such as pencil, charcoal, chalk pastel, oil pastel, colored pencil and pen. Emphasis is placed on drawing techniques, tools and materials.

Projects may include still life, portrait, landscape, and expressive pieces. Sketchbook assignments in this course are designed to help investigate, practice, experiment, plan, and reflect on your artwork.

Course: ART10 Advanced 2D Art Credit: 0.5 Grade Level: 10-12
Required Course Fee: No Prerequisite(s): Completion of 2D Art (ART03) with a grade of B or better.

Description: Advanced courses are designed to deepen your understanding, and expand your knowledge of techniques, themes, and strategies in the production of art. You will follow a curriculum that includes topics such as collaboration, abstraction, hyper realism, and expression. Research of art history and art theory is a requirement of this course, along with monthly sketchbook checks. Sketchbook checks include recording your process and research for each project, experimenting with new techniques, and creating mini artworks. Students will also have the opportunity to earn an individual or shared showcase at one of the WHS Art Shows.

Course: ART41 Advanced Ceramics Credit: 0.5 Grade Level: 10-12
Required Course Fee: No Prerequisite(s): Completion of Ceramics (ART04) with a grade of B or better.

Description: Advanced courses are designed to deepen your understanding, and expand your knowledge of techniques, themes, and strategies in the production of art. You will follow a curriculum that includes topics such as collaboration, abstraction, hyper realism, and expression. Research of art history and art theory is a requirement of this course, along with monthly sketchbook checks. Sketchbook checks include recording your process and research for each project, experimenting with new techniques, and creating mini artworks. Students will also have the opportunity to earn an individual or shared showcase at one of the WHS Art Shows.

Course: ART11 Advanced 3D Art Credit: 0.5 Grade Level: 10-12
Required Course Fee: No Prerequisite(s): Completion of 3D Art (ART17) with a grade of B or better.

Description: Advanced courses are designed to deepen your understanding, and expand your knowledge of techniques, themes, and strategies in the production of art. You will follow a curriculum that includes topics such as collaboration, abstraction, hyper realism, and expression. Research of art history and art theory is a requirement of this course, along with monthly sketchbook checks. Sketchbook checks include recording your process and research for each project, experimenting with new techniques, and creating mini artworks. Students will also have the opportunity to earn an individual or shared showcase at one of the WHS Art Shows.

Course: ART131 Advanced Drawing Credit: 0.5 Grade Level: 10-12
Required Course Fee: No Prerequisite(s): Completion of Drawing (ART13) with a grade of B or better.

Description: Advanced courses are designed to deepen your understanding, and expand your knowledge of techniques, themes, and strategies in the production of art. You will follow a curriculum that includes topics such as collaboration, abstraction, hyper realism, and expression. Research of art history and art theory is a requirement of this course, along with monthly sketchbook checks. Sketchbook checks include recording your process and research for each project, experimenting with new techniques, and creating mini artworks. Students will also have the opportunity to earn an individual or shared showcase at one of the WHS Art Shows.

Course: ART17.S1 \& ART17.S2 AP Studio Art Credit: 1 ( 0.5 credits each semester)
Grade Level: 10-12 Required Course Fee: No
Prerequisite(s): Successful completion of three (3) semesters of art \& teacher approval. You must take both semesters of this course.

Description: This course is designed to be the equivalent of a one-semester introductory college course in art and design and is for those who are prepared to take on the challenge of exploring art making of their choosing at a higher level. AP Art and Design students will develop the skills that artists and designers use. Skills learned include investigating the materials, processes, and ideas that artists and designers use; practicing, experimenting, and revising as you create your own work; and communicating your ideas about works of art and design. This course may be taken up to three times, each with a different focus of either AP 2D Art \& Design, AP 3D Art \& Design, or AP Drawing.

Note: Advanced Placement - College credit can be earned by submitting a portfolio of work for review in May at your own cost.

## Business Education

Human Resources Management: Human Resources Management focuses on the staffing activities that involve planning, recruitment, selection, orientation, training, performance appraisal, compensation, and safety of employees.
Administrative Support: Administrative Support facilitates business operations through a variety of administrative and clerical duties including information and communication management, data processing and collection, and project tracking.

## Business Education <br> Course Descriptions

(These courses can apply toward elective credit requirement)

Course: BUSO2 Keyboarding I Credit: 0.5 Grade Level: 9-12
Required Course Fee: No Prerequisite(s): No
Description: Improve typing skills! Learn how to set up emails and memorandums, both types of letters, tables, and special lists - all those things you will use in high school and beyond. You have a great opportunity to improve your speed and accuracy at the keyboard. It is strongly recommended that you take Keyboarding I as early as possible.

Course: BUS03 Keyboarding II Credit: 0.5 Grade Level: 9-12 Required Course Fee: No
Prerequisite(s): Keyboarding I (BUSO2)
Description: In Keyboarding II, you have the opportunity to be an expert in your skills at the keyboard. You will learn more advanced formatting skills and you can become very capable at producing the documents you need in school and in life. When you strive to be successful in this course, you will have developed a life skill that will always be there for you when you need it.

Note: This class will be offered in alternating years beginning in 2022-2023; don't miss out on your opportunity!

Course: BUS18 Introduction to Business Credit: 0.5 Grade Level: 9-12

## Required Course Fee: No Prerequisite(s): No

Description: You will be introduced to the world of business with an emphasis on entrepreneurship. You will become familiar with the concepts of a global economy and private enterprise system. Throughout the semester, we will hear guest speakers from the area and may have a field trip to a local business to reinforce what we are studying and gain further insight into the real world of business.

Course: BUS01 Entrepreneurship Credit: 0.5 Grade Level: 10-12
Required Course Fee: No Prerequisite(s): No
Description: Students will set up the management of a business operation; make money! Students will explore business policies, design a business plan, learn the fundamentals of an advertising campaign, and create a company. Local entrepreneurs will be guest speakers to share their business ventures and expertise. Students will create their own resume and cover letter, as well as complete an interview with human resource personnel. Let's learn and make some money!

Course: BUS14 Personal Finance Credit: 0.5 Grade Level: 10-12

## Required Course Fee: No Prerequisite(s): No

Description: What do you know about pay, benefits, and working conditions? Income taxes? Budgets and financial records? Checking accounts and saving for the future? Investing for your future and retirement planning? Loans, credit cards, and so much more? You can learn about all of this in Personal Finance. Be better prepared to enter the world after high school and to handle those difficult money decisions whether you are a post-secondary student or a wage earner.

Note: This course has a common curriculum with Independent Living. It also expands upon material learned in Digital Literacy.

Course: BUS19 Accounting I: Services Businesses Credit: 0.5 Grade Level: 10-12
Required Course Fee: No Prerequisite(s): No
Description: You will learn about accounting careers and the accounting cycle for a service business owned by a sole proprietor. You will learn how to use computers to automate the accounting cycle-as well as learn how it works with pencil and paper! You will also become an accountant for a business by completing a practice set. Planning on a business major after high school? This is a great place to start!

Course: BUS20 Accounting II: Merchandising Business Credit: 0.5 Grade Level: 10-12
Required Course Fee: No Prerequisite(s): Accounting I: Service Businesses (BUS19)
Description: This is a continuation of the first semester of Accounting I. You will learn about the accounting cycle for a merchandising business. Still planning on a business major after high school? Don't miss taking this course if you are. It will make your accounting requirement much easier!

Course: BUS11 Personal Law Credit: 0.5 Grade Level: 11-12
Required Course Fee: No Prerequisite(s): No
Description: This course allows you to learn a little about how the law affects your life. How does the law affect you as a minor? What do you need to know when you rent your first apartment? What do you need to know about insurance? Once you learn about the court system, civil law, and criminal law, we will move on to a little study in ethics, minors and the law, family law, landlords and tenants, and insurance. You will leave this class with some base of knowledge as to your rights and responsibilities within society and its laws.

Course: BUS21 Accounting III Credit: 0.5 Grade Level: 11-12 Required Course Fee: No
Prerequisite(s): Accounting II: Merchandising Business (BUS20)
Description: During this one semester course, you will learn to apply the principles of Accounting I and II and be involved in advanced accounting procedures using both a manual system as well as using technology to automate sections of the process.

## Computer Science

Information Support and Services: Careers in Information Support and Services involve IT deployment, including implementing computer systems and software, providing technical assistance and managing information systems. Programming and Software Development: Careers in Programming and Software Development involve the design development implementation and maintenance of computer systems and software, requiring knowledge of computer operating systems, programming languages and software development.
Web and Digital Communications: Careers in Web and Digital Communications involve creating, designing and producing interactive multimedia products and services, including development of digitallygenerated or computer-enhanced media used in business, training, entertainment, communications and marketing.

## Computer Science

## Course Descriptions

(Digital Literacy is required to graduate; all other courses may be offered as on-line and independent and apply toward elective credit requirement)

Course: COM02 Digital Literacy Credit: 0.5 Grade Level: 9-12

## Required Course Fee: No Prerequisite(s): No

Description: Digital Literacy is a one-semester course required for graduation. In this course students learn to solve problems using computer applications. Students learn about digital citizenship in order to prepare and function in a digital world. This course has a substantial financial literacy component that uses spreadsheets to solve problems such as budgeting and loan amortization. We will use word processing, spreadsheets, presentation software, and graphic design to cover financial literacy topics. In addition, students will get experience using a PC in the classroom. Students gain computer and financial skills that will be applicable to any career path they choose.

Note: This course is a Graduation Requirement. Some curriculum is shared with Independent Living and Personal Finance.

Course: COM03 Computer Graphics \& Desktop Publishing Credit: 0.5 Grade Level: 10-12 Required Course Fee: No Prerequisite(s): No

Description: In this course students will learn the principles of graphic design and layout. Students will be using digital graphics software such as Photoshop to create memes, logos, flyers, magazine spreads, posters, and advertisements. You will also learn about the elements of graphic design such as use of lines, spacing, texture, color, movement, balance, emphasis, and unity. This course is recommended for students who want to learn more about digital art and design or who are considering a career in graphic art or commercial art.

Course: COM04 Programming I Credit: 0.5 Grade Level: 10-12

## Required Course Fee: No Prerequisite(s): No

Description: This course introduces the student to the world of writing computer programs. You will learn the basics of creating your own computer programs with JavaScript. Students will learn learn about variables, control structures, loops, arrays, and functions. We will use code to draw 2D graphics on the computer screen, and by the end of the semester we will be making a game or interactive graphical display! Students will also learn to prototype algorithms and document code. If you are thinking about a career in engineering, computer science, business, mathematics, science, or you are a fan of gaming then this course is for you!

Note: This is a Dual Credit Course with FVTC. Students have the opportunity to earn 1.0 FVTC credit for Concepts of Programming.

Course: СОM05 Programming II Credit: 0.5 Grade Level: 10-12 Required Course Fee: No
Prerequisite(s): Programming I (COMO4)
Description: This course is a continuation of Programming I. While working on different games and graphics projects, students will learn more advanced programming concepts such as object-oriented programming(classes, objects, and JSON), multi-dimensional arrays, exception handling, string manipulation, and performance optimization. Students will also get an opportunity to learn another
programming language other than JavaScript such as Python or Java. Programming II prepares the serious student for a future career in computer science. It is recommended to take Programming I and II in the same school year. If you are thinking about a career in engineering, computer science, business, mathematics, science, or you are a fan of gaming then this course is for you!

Course: COM09 Automated Manufacturing \& Programming Credit: 0.5 Grade Level: 10-12
Required Course Fee: No Prerequisite(s): No
Description: During this class students will explore the field of automated manufacturing and robotic design using a variety of hands on activities. The first part of the semester introduces ladder logic diagrams used to document power control networks. Discrete industrial devices are also studied including switches, contactors, relays, timers, and motor starters. Students will design, construct, and troubleshoot ladder logic circuitry following safe working procedures. The second part of the semester introduces the Allen Bradley SLC-500 PLC platform and hardware configuration. Students will create, organize, edit, download, test, and debug RSLogix500 projects using latches, counters, comparing and forcing concepts. Additionally, students will wire industrial sensors as inputs along with various output devices.

Note: This is a Dual Credit Course with FVTC. Students have the opportunity to earn 1.0 FVTC credit for Ladder Logic \& Control Devices and 1.0 FVTC credit for Programmable Logic Controllers 1.

Course: COM31 Web Design Credit: 0.5 Grade Level: 10-12
Required Course Fee: No Prerequisite(s): No
Description: In this course you will learn how to create web pages from scratch. Students learn how to use several computer scripting and programming languages including: HTML5, JavaScript, and CSS3. You will learn to design web page elements such as headers, navigation menus, and home pages. We will also cover topics about digital retouching, typography, animations, handling user input, site maps, and color palettes. If you are thinking of a career in computer science, business, or engineering then this course is for you!

Course: COM08.S1 \& COM08.S2 AP Computer Science A Credit: 1.0 (Full year-0.5 per
Grade Level: 11-12
Required Course Fee: No fee for taking the course. There is a fee if the student chooses to take the optional AP test.

Prerequisite(s): Must have passed both semesters of Algebra II, or consent of the instructor.
Description: AP Computer Science A introduces students to computer science through programming. Fundamental topics in this course include the design of solutions to problems, the use of data structures to organize large sets of data, the development and implementation of algorithms to process data and discover new information, and the ethical and social implications of computing systems. The course emphasizes object-oriented programming and design using the Java programming language.

Note: No programming experience is necessary, but students who have taken Programming I or II will have an advantage. This course is equivalent to a first-semester college or technical school course in computer science.

## English

Throughout your high school career, you will need to take 4 credits of English/Language Arts. You will read texts in a variety of genres that appeal to many interests, write for several purposes and audiences, and speak to inform and persuade. In addition to earning high school credit, you may take any number of our four CAPP (Coopertive Academic Partnership Program) courses to earn college credits through UW-Oshkosh or advanced standing through Fox Valley Technical College. All ELA courses are designed to help develop your academic and creative reading and writing skills.

Career Opportunities: FORFNSICS
Journalist, Teacher, Copywriter TEAM Copy Editor, Technical Writer

## Course Work in this Career Pathway

## English

## Course Descriptions

(These courses apply toward required credits)

## Course: ENG06.S1 \& ENG06.S2 Supplemental ELA Credit: 1.0 (Course is a full year-0.5 per semester)

Grade Level: 9-12 Required Course Fee: No
Prerequisite(s): Placement is this course will be determined by assessments and teacher recommendation.

Description: Supplemental ELA is designed to support students who lack ELA confidence due to missing foundational ELA skills and application abilities. This course will build students' ELA skills so that they will be successful in their current and future English courses. When students successfully complete this course, they will earn elective credit.

Note: This course counts as an Elective credit.
Course: ENG21.S1 \& S2 English 9 Credit: 0.5
Grade Level: 1.0 (Course is a full year -0.5 per semester) Required Course Fee: No
Description: In English 9, students will engage in a variety of reading, writing, and speaking tasks while exploring complex themes through literature, expressing their thoughts and ideas through creative expression, and emphasizing the importance of their passions through self-guided research. This mandatory course for all freshmen builds a solid skills foundation for their future success in high school classes and beyond..

Course: ENG13 English 10 - Composition Credit: 0.5 Grade Level: 10
Required Course Fee: No Prerequisite(s): No
Corequisite(s): If you take this course, you must also take English 10 - Intro to American Lit (ENG14)
Description: Get ready to write! English 10 Composition equips all sophomores with the writing skills necessary for academic and career success. Students will plan, draft, revise, edit, and publish a variety of short- and long-form texts; participate in conferences with peers and the teacher; and reflect upon their growth as a writer. Students will learn about grammar concepts and apply those concepts in their own writing.

Class: ENG14 English 10 - Intro to American Lit Credit: 0.5 Grade Level: 10
Required Course Fee: No Prerequisite(s): No
Corequisite(s): If you take this course, you must also take English 10 - Composition (ENG13)
Description: This reading-centered semester course required for all sophomores will trace the development of the distinctive tone of American literature through the last 300 years. Students will analyze and discuss the tone and theme of landmark American fiction, nonfiction, and poetry, creating an understanding of how culture affects literature and how literature affects culture.

Course: ENG18 Advanced English 10 Composition Credit: 0.5 Grade Level: 10

## Required Course Fee: No Prerequisite(s): No

Corequisite(s): If you take this course, you must also take English 10 - Intro to American Lit (ENG14) or Advanced English 10 American Literature (ENG20)

Description: While the same standards will be addressed in English 10 Composition, the approach, depth, speed, and expectations of work will be more rigorous in English 10 Advanced Composition. Students will have the opportunity to extend their learning in each unit by completing additional writing tasks, as well as explore additional texts and more complex writing tasks.

Course: ENG20 Advanced English 10 American Literature Credit: 0.5 Grade Level: 10
Required Course Fee: No Prerequisite(s): No
Corequisite(s): If you take this course, you must also take English 10 - Composition (ENG13) or Advanced English 10 Composition (ENG18)

Description: While the same standards will be addressed in English 10 American Literature, the approach, depth, speed, and expectations of work will be more rigorous in Advanced English 10 American Literature. For example, students will be asked to draw more in-depth connections between their readings, history, and modern culture. In addition, assessments will ask students to display more of the "How do they know" rather than the "What do they know."

Course: ENG04.S1 \& ENG04.S2 English 11 Credit: 1.0 (Course is a full year -0.5 per semester)
Grade Level: 11 Required Course Fee: No Corequisite(s): You must take both semesters.

## Description:

## Journeys

Buckle up and prepare to journey forth with the great authors of world literature and experience the Hero's Journey in Dante's Inferno, Homer's Odyssey, and other exciting mythological quests. Students will also examine their own life journey by investigating post-secondary options and creating resumes. Rigorous, analytical writing could include the definition essay, literary analysis, an epic poem, and reflections. In addition, grammar and mechanics will be taught and reviewed in preparation for the ACT grammar section. This first semester course is required for all juniors.

## Pride, Power, Prejudice and Persuasion

The second semester required course for all juniors examines the downfalls of pride, the desire for power, and the effects of prejudice, as seen in Shakespeare's Macbeth, Wiesel's Night, and in various multicultural novels. Students will learn and apply the art of persuasion in a character analysis essay and in the research paper project. In addition, reading strategies will be taught and practiced in preparation for the ACT reading section.

Note: Eligible juniors who are interested may take a CAPP course and/or Creative Writing in addition to English 11.

Course: ENG11 Creative Writing Credit: 0.5 Grade Level: 11-12
Required Course Fee: No Prerequisite(s): No
Corequisite(s): Must have completed English 9 (ENG01 \& ENG02) and English 10 (ENG13 \& ENG14)

Description: This course will focus on creating a community of writers who freely use their language
talents for community enrichment and growth. A rigorous regimen of reading, writing, and reflection; students will publicly share writings. Students will create goals, write, and share their unique perspectives on focused assignments or issues, including a broad range of genres not typically covered in the academic classroom. Students should have an above average writing ability and be self-motivated learners.

Course: ENG05.S1 \& ENG05.S2 English 12
Credit: 0.5 or 1.0 (Taken as a semester or year long course) Grade Level: 12
Required Course Fee: No Prerequisite(s): No
Description: English 12 is a course designed for those students who may anticipate attending college or a post-secondary school after graduation. Emphasis is placed in three areas: vocabulary building, essay writing, and a survey of contemporary literature.

Course: ENG07 English 101 Composition Credit: 0.5 Grade Level: 12
Required Course Fee: If taken course for UW Oshkosh credits there could be a fee for this class. Fees have ranged from $\$ 90 /$ credit to $\$ 134 /$ credit. Fees have not been set for the next school year.

Prerequisite(s): No
Description: Do you think the world will end with a bang or a whimper? Although humanity has survived Y2K and the year 2012, many people still believe we are living in the end of times. Over the course of the semester, students will read both science fiction and science fact regarding the demise of our civilization and explore doomsday scenarios from asteroids hitting the earth to zombies eating our brains. They will write research-based essays on these same topics. The goals of this WBIS (Writing-Based Inquiry Seminar) program are to have students develop their writing, critical thinking, and analytical reading skills.

Note: When you complete this course with a B or better, you'll earn 3.0 CAPP (Cooperative Academic Partnership Program) UW Oshkosh Transcripted Credits (English 101 - College English I)

Course: ENG08 Communications 111 Credit: 0.5 Grade Level: 11-12
Required Course Fee: If taken course for UW Oshkosh credits there could be a fee for this class. Fees have ranged from $\$ 90 /$ credit to $\$ 134 /$ credit. Fees have not been set for the next school year.

## Prerequisite(s): No

Description: Hear ye, hear ye! Let your voice be heard in this rigorous, college-level speaking and communications course. Students will tackle engaging college-level content while finding their own voices. The course includes an intensive focus on the role speech plays in our modern society and the importance of both establishing credibility as a speaker and evaluating credibility as a listener. Students will prepare and deliver five to six speeches through the course of the semester, complete research both on student-selected and instructor-selected topics, and demonstrate strong understanding of high quality speech through written reflections and evaluations.

Note: Advanced Standing - when you complete this course with a B or better, you'll earn 3.0 FVTC Transcripted Credits (Oral/interpersonal Communication).

When you complete this course with a B or better, you'll earn 3.0 UW-Oshkosh Transcripted Credits (Communications 111 - Fundamentals of Speech Communication).

## Course: ENG09 English 214 American Literature Credit: 0.5 Grade Level: 12

Required Course Fee: If taken course for UW Oshkosh credits there could be a fee for this class. Fees have ranged from $\$ 90 /$ credit to $\$ 134 /$ credit. Fees have not been set for the next school year.

Prerequisite(s): Senior Status/Composition 101 either before or in conjunction with English 214.
Description: This course explores the events, people, and literature that have helped shape America since the Civil War. In this survey course, students will be looking at an overview of literary tradition, the historical influences, and the recurring themes. Works are chosen to represent diverse ethnic, racial, and social groups in historical, political, and economic contexts for what they reflect and reveal about the evolving American experience and character. Representative works from the Regional, Realist and Naturalist movements, the Harlem Renaissance, WWI and WWII eras, Southern Gothic, and feminist expression will be examined. Students will also read the following novels: Freeman, My Antonia, The Great Gatsby, and Unbroken. This course is writing intensive.

Note: CAPP (Cooperative Academic Partnership Program) UW Oshkosh - When you complete this course with a B or better, you'll earn 3.0 UW-Oshkosh Transcripted Credits (English 214 - American Literature II)

Course: ENG10 Appreciation of the Drama 161 Credit: 0.5 Grade Level: 11-12
Required Course Fee: If taken course for UW Oshkosh credits there could be a fee for this class. Fees have ranged from $\$ 90 /$ credit to $\$ 134 /$ credit. Fees have not been set for the next school year.

Prerequisite(s: No
Description: Come enter the exciting world of plays! No theatre background necessary.
The course's objectives are to describe what theatre is, understand the language of theatre, evaluate key people in theatre, view and critique professional productions, and understand theatre's impact in history and in society. We will read plays, attend live productions, and write critiques of these productions.

Note: When you complete this course with a B or better, you'll earn 3.0 UW-Oshkosh Transcripted Credits (Theatre 161 - Introduction to Theatre)

# Certified Nursing Assistant 

## Quality CNA Training

Course Length: 75 hours
This Nurse Aide Training course trains individuals in the art of caregiving, focusing on the five principles of care that should inform every decision a caregiver makes:

- Safety
- Privacy
- Dignity
- Independence
- Communication

Paperwork to be Completed Before Class Starts for Quality CNA Training Admission

- Pick up application and turn in no later than 1 week before upcoming class begins

Paperwork to be Completed for Quality CNA Training

- Application
- 2 step TB skin testing
- Flu Shot
- Covid Vaccination
- Caregiver \& Criminal Background Check

## Course Requirements

- There is a $100 \%$ attendance requirement for the Nursing Assistant class and clinical days.
- Students must pass the class

## Clinical

Each student will complete two sessions of clinical. Students may be assigned to Group 1 or Group 2 for clinical sessions, based on class size. The clinical dates listed are subject to change based on clinical site availability and instructor scheduling. (Due to COVID-19, clinicals could possibly be changed to a simulated lab until the Healthcare Facilities can safely allow students back into the facility.)

## Flex Day

This day is to be used for additional class time, as a weather make-up day, emergency cancelation day etc. as determined by Quality CNA Training. If needed, time scheduled on this day is MANDATORY for all students.

## Uniforms

- Dress Code: A ROYAL BLUE scrub top and BLACK scrub pants are required to be worn to each course session/activity.
- Footwear must be low-heeled, non-skid shoes with closed toes. Tennis shoes are acceptable. Socks must also be worn.

## Missed Time

Students can miss the equivalent of ONE classroom day, HOWEVER this time is required to be made up on a day approved by the instructor. All missed time will cost \$35 per hr to make up \& must be paid in advance, at student's expense.

## Vaccines Due

Students are REQUIRED to have a 2-step TB test, Flu shot, AND a COVID vaccine prior to first in-person lab day. All documents are due by first day of class. A negative COVID-19 test may also be required. Students without required documents will be dropped/failed from class without refund.

## Tuition

The CTE Incentive Grant Program provides opportunities for high school students to get a head start on a technical certificate or an associate or bachelor's degree, to learn more about a field and/or to develop specific skills for entering the workforce immediately after high school graduation. Unless
the student fails to complete or get a passing grade in the course, the district will pay the cost of tuition and fees and the student will receive both high school and college credit. This high school elective credit will then count toward the student meeting high school graduation requirements needed to earn a high school diploma. Please note, because students who participate in CTE Incentive Grant begin creating their post high school transcript while still in high school, and students who do not complete or fails the CNA course will be responsible for paying for the course and fees. We highly recommend that students, parents, and school officials work together on deciding if this opportunity is appropriate.

## Family \& Consumer Science

 Course Descriptions(These courses can apply toward elective credit requirement)

Course: FCE16 Teen Life Credit: 0.5 Grade Level: 9-10 Required Course Fee: No
Prerequisite(s): No
Description: Teen Life focuses on personal awareness, developing successful relationships, goal setting, nutrition, fostering life management skills, and exploring career options. Enjoy becoming more independent through a wide variety of learning activities and projects.

Course: FCE21 Food Today Credit: 0.5 Grade Level: 9-12 Required Course Fee: Yes
Prerequisite(s): No
Description: This class introduces students to the world of culinary. Kitchen safety and sanitation are emphasized. Students learn basic knife skills, food terms, and food preparation techniques while making eggs, main dishes, fruits and vegetables and desserts. In addition to improving their food skills, students learn about costs, time management, nutrition and proper food storage. Students also gain confidence in problem solving and decision making.

Course: FCE19 Culinary Arts I Credit: 0.5 Grade Level: 10-12 Required Course Fee: Yes
Prerequisite(s): Food Today (FCE21)
Description: Is a culinary career in your future? In this course, students expand their culinary skills. We will learn food preparation and safe handling techniques. Units will include cooking principles, knife skills, sauces, baked goods, and more!

Course: HOCO3 Health Occupations 1 (formerly Intro to Health Occupations) Credit: 0.5
Grade Level: 10-12 Required Course Fee: No Prerequisite(s): No
Description: Career opportunities in healthcare are endless. This course allows you to explore many of these careers through guest speakers and personal projects. This class also addresses topics involved in the healthcare field, such as personal characteristics, the health care system and providers, ethics/legalities, medical terminology, health and wellness, first aid, and costs of healthcare.

Course: FCE08 Independent Living Credit: 0.5 Grade Level: 11-12

## Required Course Fee: No Prerequisite(s): No

Description: Independent Living teaches you how to survive and thrive in the real world! Together, we'll dive into the real world of money, including jobs and paychecks in high school, career planning, budgeting, managing a bank account, choosing and paying for college or alternative to college, renting your first apartment, managing credit, avoiding common financial mistakes, saving for the future, investing for retirement, insuring your most valuable assets, and more. This course utilizes engaging games and projects so you can practice the skills you'll need to manage your personal finances throughout your life, not just read or hear about them. Even better, this course often kickstarts lots of helpful money conversations with your loved ones. That's a win-win.

Note: This course has a common curriculum with Personal Finance. It also expands upon material learned in digital literacy.

Course: FCE17 Early Childhood Education: Health, Safety \& Nutrition

## Credit: 0.5 Grade Level: 10-12 Required Course Fee: No

Prerequisite(s): Child Growth \& Development (FCE18)
Description: Examines the topics of health, safety, and nutrition within the context of the early childhood educational setting. Course competencies include: integrate strategies that support diversity, cultural responsiveness, and anti-bias perspectives; examine governmental regulations and professional standards as they apply to health, safety, and nutrition; plan a safe early childhood environment; plan a healthy early childhood environment; plan nutritionally sound menus; examine child abuse and neglect issues and mandates; describe Sudden Infant Death Syndrome (SIDS) risk reduction strategies, describe strategies to prevent the occurrence of Shaken Baby Syndrome (SBS); incorporate health, safety, and nutrition concepts into the children's curriculum.

Note: At the successful completion of both FCE17 \& FCE18 through WHS \& FVTC, a Teacher Aide Certificate will be issued to the student. This certificate satisfies the state of Wisconsin entry-level requirements for Licensed Group Care Centers and students will be placed on level 7 in the Wisconsin Registry.

## Course: FCE18 Child Growth \& Development Credit: 0.5 Grade Level: 10-12

## Required Course Fee: No Prerequisite(s): No

Description: This course will help you develop the skills necessary to work with young children. Study the development of a child ages 3-8 and strategies that support all areas of development. If students are interested in a career that involves working with and/or teaching children, this is a course that would be valuable. Frequent activities with preschoolers provided for practical experience.

Note: At the successful completion of both FCE17 \& FCE18 through WHS \& FVTC, a Teacher Aide Certificate will be issued to the student. This certificate satisfies the state of Wisconsin entry-level requirements for Licensed Group Care Centers and students will be placed on level 7 in the Wisconsin Registry.

## Course: FCE20 Culinary Arts II Credit: 0.5 Grade Level: 11-12 Required Course Fee: Yes

Prerequisite(s): Food Today (FCE21) \& Culinary I (FCE19)
Description: This course is designed to use skills and knowledge gained from Culinary I and applies them to advanced food preparation techniques. Topics covered include plating and presentation, meat and poultry identification and preparation, and yeast-raised products.

Course: HOC04 Health Occupations 2 (formerly Healthcare, Medicare \& Health Issues)
Credit: 0.5 Grade Level: 11-12
Required Course Fee: No Prerequisite(s): Health Occupations 1 (HOC03)
Description: The career opportunities in healthcare are endless. This course allows you to explore many of these careers through guest speakers, personal projects, and a possible career observation. This class also addresses topics involved in the healthcare field, such as handicap awareness, body systems, technology, trends and social issues in healthcare, gerontology and aging, pharmacology and research, human behavior, nutrition, and medical terminology.

## Health

## Course Descriptions

(This course applies toward required credits)

## Course: PE05 Health Credit: 0.5 Grade Level: 9 Required Course Fee: No <br> Prerequisite(s): No

Description: All students are required to pass a health class. If you passed a semester of health class in middle school you are not required to take health in high school. This class incorporates instruction in personal, family, community and environmental health, along with nutrition and fitness, drug education, mental health, safety and First Aid, and CPR instruction.

Note: This course is a Graduation Requirement

## Mathematics

Students are required to take 3 credits of math during their high school adventure. We offer everything from Algebra 1 up to AP Statistics and AP Calculus. We also offer 2 support classes for Algebra 1 and Geometry as well as a Transitions to Algebra 2 course. The math department strongly encourages students to
continue on in math, taking more than the required 3 credits. There are many important placement tests and standardized tests that require math skills so students should plan to take a math class every year. The math department looks forward to seeing everyone!

## Career Opportunities:

Skilled Trades Careers, packaging, Business

## Is This You?

## Course Work in this Career Pathway

## Mathematics Course Descriptions <br> (These courses apply toward required credits)

Course: MAT32.S1 \& MAT32.S2 Supplemental Math
Credit: 1.0 (Course is a full year course - 0.5 per semester)
Grade Level: 9-12 Required Course Fee: No
Prerequisite(s): Placement in this course will be determined by assessments and teacher recommendation

Corequisite(s): You must take both semesters
Description: Supplemental Math is designed to support students who lack math confidence due to missing foundational math skills and application abilities. This course will build students' math skills so that they will be successful in their current and future math courses. When students successfully complete this course, they will earn elective credit.

Course: MAT39.S1 \& MAT39.S2 Advanced Geometry
Credit: 1.0 (Course is a full year course 0.5 per semester)

Grade Level: 9-12 Required Course Fee: No
Prerequisite(s): Teachers approval Corequisite(s): You must take both semesters
Description: This course is for students who express a strong interest in mathematics. Students considering this course should be active, inquisitive, and independent learners. Advanced Geometry will be more challenging than the standard geometry course and will provide multiple opportunities for students to take greater responsibility for their learning. This course emphasizes the further development of skills, techniques and connections to geometry concepts. The topics include but are not limited to: foundations of geometry, proof and logic, lines, transformation, probability, polygons, similarity, 2D and 3D measurement, circles and basic trigonometry. Advanced Geometry builds on your algebra knowledge while also preparing you for future math courses. It teaches you to think logically, problem solve, and use critical thinking skills in real life situations.

Course: MAT35.S1 \& MAT35.S2 Algebra I Credit: 1.0 (Course is a full year course - 0.5 per semester)
Grade Level: 9-12 Required Course Fee: No
Prerequisite(s): No Corequisite(s): You must take both semesters
Description: The scope and sequence of the course will include: Operations on real numbers; working with formulas, percentages, ratios, and decimals; writing, solving, and graphing linear equations/inequalities; application of equations/inequalities in real-life situations; and working with exponential and quadratic models.

Course: MAT36.S1 \& MAT36.S2 Geometry Credit: 1.0 (Course is a full year course -0.5 per semester)
Grade Level: 9-12 Required Course Fee: No
Prerequisite(s): Must have completed Algebra I (MAT35.S1 and MAT35.S2)
Corequisite(s): You must take both semesters

Description: The scope and sequence of this course will include: reasoning and proofs, relationships of parallel and perpendicular lines, properties and relationships of polygons, properties of circles, surface area, volume, and basic trigonometry. Dual enrollment in both Geometry and Algebra 2 is possible with instructor approval.

Course: MAT37.S1 \& MAT37.S2 Algebra II Credit: 1.0 (Course is a full year course -0.5 per
Grade Level: 9-12 Required Course Fee: No
Prerequisite(s): Must have passed both semesters of Geometry (MAT36.S1 \& MAT36.S2) with a C- or better, or teacher recommendation.

Corequisite(s): You must take both semesters Description: Students that plan to attend a 4-year college are required to complete this course and it is recommended for students entering a technical college. Concepts covered include: a review of linear equations and inequalities; quadratic functions and factoring; polynomial, rational, radical, exponential, and logarithmic functions; conic sections; sequences and series; and an introduction to trigonometric functions. Enrollment in both Algebra II and Geometry is possible with instructor approval.

Course: MAT31.S1 \& MAT31.S2 Transition to Algebra II Credit: 1.0 (Course is a full year course Grade Level: 9-12 Required Course Fee: No

Prerequisite(s): Successful completion of Geometry (MAT36.S1 \& MAT36.S2)
Corequisite(s): You must take both semesters
Description: This course reviews and extends algebra and geometry concepts for students who have already passed Algebra I and Geometry, but may not be ready for an Algebra II course. Particular attention will be placed on learning skills aligned directly to the ACT. After the ACT is complete, focus will be shifted to building a foundation in mathematics for students to be well prepared for Algebra II.

Course: MAT05.S1 \& MAT05.S2 AP Statistics Credit: 1.0 (Course is a full year course -0.5 per semester)
Grade Level: 9-12 Required Course Fee: No
Prerequisite(s): "C" average in both semesters of Algebra II (MAT37.S1 \& MAT37.S2)
Corequisite(s): You must take both semesters. Enrollment in Pre calculus and Statistics is possible.
Required Course Materials: All students are required to have a graphic calculator. The $\mathrm{Tl} 83+$, 84, $84+$ or $N=$ Spire will be used.

Description: Students will learn proper statistical techniques in exploring data, sampling and experimentation, planning and conducting a study, explore random phenomena using probability and simulation, and statistical inference through hands-on activities and traditional practice such as homework. This course will challenge both your math skills and your communication skills.

Note: Advanced Placement - College credit can be earned by passing the AP exam in May.
Course: MAT38.S1 \& MAT38.S2 Pre Calculus Credit: 1.0 (Course is a full year course -0.5 per semester)
Grade Level: 9-12 Required Course Fee: No
Prerequisite(s): Must have passed both semesters of Algebra II (MAT37.S1 \& MAT37.S2)

Corequisite(s): You must take both semesters
Required Course Materials: All students are required to have a graphic calculator. $\mathrm{The} \mathrm{TI} 83+$ or TI $84+$ is recommended.

Description: Students that plan to attend a 4-year college are encouraged to take this course. This course is a prerequisite for calculus. Students will continue to develop their understanding of functions and their graphs, transformations, and inverse functions. Other topics include exponential and logarithmic functions and extensive work with trigonometry, including solving trigonometric equations.

Course: MAT06.S1 \& MAT06.S2 AP Calculus AB
Credit: 1.0 (Course is a full year course - 0.5 per semester)
Grade Level: 9-12 Required Course Fee: No
Prerequisite(s): "C" average or better in Pre-calculus (MAT38.S1 \& MAT38.S2)
Corequisite(s): You must take both semesters
Required Course Materials: All students are required to have a graphic calculator. The Tl 83+, 84, $84+$ or $N=$ Spire will be used.

Description: Description: Students in this class will develop an understanding of differential and integral calculus, while working with polynomial, rational, trigonometric, exponential and logarithmic functions. Students will explore the fundamental concepts of limits, derivatives, and integrals while solving problems using algebraic, numerical, and graphical approaches. They will see how calculus relates to other fields, such as physics, economics, and engineering. $A P$ Calculus $A B$ is the equivalent of a first semester college calculus course.

Note: Advanced Placement - College credit can be earned by passing the AP Exam in May.
Course: MAT07.S1 \& MAT07.S2 AP Calculus BC Credit: 1.0 (Course is a full year course - 0.5 per
Grade Level: 9-12 Required Course Fee: No
Prerequisite(s): Completion of a full year of Calculus AB (MAT06.S1 \& MAT06.S2)
Corequisite(s): You must take both semesters
Required Course Materials: All students are required to have a graphic calculator. The TI 83+, 84, $84+$ or $N=$ Spire will be used.
Description: AP Calculus BC is designed to be the equivalent of both first and second semester college calculus courses. This course reviews all the AP Calculus AB topics in differential and integral calculus, while adding parametric, polar curves and vector-valued functions to the discussion of limits, derivatives, and integrals. It also covers additional integration techniques, and has a strong focus on sequences and series (including convergence and divergence, Taylor and Maclaurin series).

Note: Advanced Placement - College credit can be earned by passing the AP exam in May

## Music

The music department offers multiple course options for both instrumental and vocal music. Each band and choir course is a performing ensemble with many opportunities to perform at concerts, ceremonies, and events throughout the year at school and । in the community. Depending on your experience and interest level, I the number of events can vary. Students interested in learning more about reading, writing, and composing or arranging music should consider AP Music Theory. This course will also prepare students interested in pursuing a major or minor in any music field. Consider making music a part of your day every day and join an ensemble!

## Career Opportunities:

## Music

Course Descriptions
(These courses can apply toward elective credit requirement)

Course: MUS01.S1 \& MUS1.S2 Concert Band

## Credit: 1.0 (Course is a full year course -0.5 per semester)

Grade Level: 9-12 Required Course Fee: No
Prerequisite(s): Grades 6-8 Band; this prerequisite may be waived pending instructor.
Corequisite(s): You must take both semesters
Description: Concert band is a course designed to continue the musical experience and instruction provided in grades 6-8. Students will be required to attend bi-weekly lessons, either private or in small groups and to perform and attend all scheduled concerts, parades and events in which the band participates. To enroll in this course a student must have been a band member during grades 6-8. This prerequisite may be waived pending instructor approval.

Course: MUS04.S1 \& MUS04.S2 Mixed Choir Credit: 1.0 (Course is a full year course - 0.5 per semester)
Grade Level: 9-12 Required Course Fee: No
Prerequisite(s): No Corequisite(s): You must take both semesters
Description: Mixed Choir is the high school's entry-level choral ensemble for mixed voices that meets on a daily basis. The choir is comprised of freshman through senior boys, and freshman girls. The choir performs a minimum of three concerts per year. Each member is required to participate in the solo-ensemble unit of study and performance. Course content includes an introduction to written music theory, as well as ear training and sight-reading. Literature studied for performance is of medium difficulty, in 3-4 parts, with explorations into all styles and some foreign languages.

Course: MUS02.S1 \& MUS02.S2 Wind Ensemble
Credit: 1.0 (Course is a full year course - 0.5 per semester)

Grade Level: 10-12 Required Course Fee: No
Prerequisite(s): Instructor Recommendation Required
Corequisite(s): You must take both semesters
Description: Wind Ensemble is a course designed to take the skills acquired throughout the basics and fundamentals of Concert Band to a higher level. The music performed in this group is of a more advanced level with emphasis on independent playing and only one or two individuals per part. Students in grades 10 and 11 will be required to attend a bi-weekly private lesson and to perform all scheduled concerts and events in which the band participates. Students in grade 12 have the option of continuing lessons (not required) but must still attend all scheduled band functions.

Course: MUS03.S1 \& MUS03.S2 Treble Clef Choir Credit: 1.0 (Course is a full year course - 0.5 per semester)
Grade Level: 10-12 Required Course Fee: No
Prerequisite(s): No Corequisite(s): You must take both semesters
Description: Treble Choir is a choral ensemble for treble voices that meets on a daily basis. The choir
performs a minimum of three concerts per year. Each member is required to participate in the solo-ensemble unit of study and performance. Course content includes written music theory, as well as ear training and sight-reading. Literature studied for performance is of medium difficulty, mainly in 3-4 part treble voicing, with explorations into all styles and some foreign languages.

Course: MUS05.S1 \& MUS05.S2 Concert Choir Credit: 1.0 (Course is a full year course - 0.5 per semester)
Grade Level: 10-12 Required Course Fee: No
Prerequisite(s): Audition and 1 year of HS Choir. (The year of HS Choir prerequisite may be waived pending instructor approval and demonstration of adequate skills)

Corequisite(s): You must take both semesters.
Description: Concert Choir is an auditioned mixed vocal ensemble that meets on a daily basis. The choir performs a minimum of three concerts per year. The Concert Choir is also responsible for providing the cast, chorus, and stage crew for the annual WHS musical production. Each member is required to participate in the solo-ensemble unit of study and performance. Course content includes written music theory, as well as ear training and sight-reading. Literature studied for performance is of an advanced nature and covers many different styles and languages.

Course: MUS06.S1 \& MUS06.S2 Madrigal \& Vocal Jazz Ensemble
Credit: 1.0 (Course is a full year course -0.5 per semester) Grade Level: 11-12
Required Course Fee: No Prerequisite(s): Audition Required
Corequisite(s): You must take both semesters and either Treble Choir (MUS03.S1 \& MUS03.S2) or Concert Choir (MUS05.S1 \& MUS06.S2) for both semesters.

Description: The Madrigal/Vocal Jazz Ensemble known as "Mad Jazzers" is an auditioned chamber size group of singers that meets five times a week. A prerequisite of the ensemble is that the student must also be a member of another curricular choir. This ensemble performs at three main concerts throughout the school year, at Solo-Ensemble Festival, and in the community as madrigal singers during the holiday season, and as a vocal jazz ensemble at spring festivals and the high school jazz concert. The ensemble is also the Royal Court for the annual Madrigal Dinner. The Madrigal Dinner is a Medieval Feast, which takes place at the high school on the second weekend of December. Literature is of moderate to advanced level, including renaissance madrigal, chamber choral, and vocal jazz styles.

## Course: MUS07.S1 \& MUS07.S2 AP Music Theory Credit: 1.0 (Course is a full year course - 0.5 per semester)

Grade Level: 11-12 Required Course Fee: No
Prerequisite(s): Interview with instructor required prior to enrollment
Corequisite(s): You must take both semesters
Description: This course is offered to juniors and seniors currently enrolled in instrumental or vocal ensembles within the high school music department. The course will include both classroom and independent work. Materials covered will include beginning, intermediate and advanced music theory, harmony, rhythmic dictation and sight-singing. Students will improve their current music reading skills and pursue further study into the additional skills needed for music study at the post-secondary level (college). Preparation for the AP Music Theory Test will also be provided during the class for those interested in possibly earning college credit.

Note: College credit can be earned by passing the AP exam in May.

## Physical Education

Students need to earn 1.5 credits of required Physical Education during their high school career. The Physical Education Department also offers advanced level courses that may be taken as electives. Students may only take one semester of "required" physical education per school year; however, they may take an "elective" course in any semester they choose. All physical education courses are coed.

## Physical Education <br> Course Descriptions

(These courses apply towards either an elective or a required credit)

## Course: PE15 Sports Challenge Credit: 0.5 Grade Level: 9-12 Required Course Fee: No <br> Prerequisite(s): No

Required Course Materials: All PE courses require that students need tennis shoes and his/her physical education clothing.

Description: Students may choose to take additional semesters of physical education along with their required physical education classes at any time during their high school career as an elective. Elective classes will be advanced level and consist of 5 days of activity. All elective classes will be offered to students in grade 9-12, with the priority given to the upperclassmen. All students need to take the required physical education course in three semesters of their high school career.

This class is designed for the student who enjoys team sports. Activities that will be emphasized in this section are: basketball, flag football, pickleball, softball, tennis, volleyball, badminton, speedball, soccer, ultimate Frisbee, disc golf and cardiovascular games.

Note: May not be taken as a required physical education credit
Course: PE17 Strength Conditioning \& Fitness Credit: 0.5 Grade Level: 9-12
Required Course Fee: No Prerequisite(s): No
Required Course Materials: All PE courses require that students need tennis shoes and his/her physical education clothing.

## Required Course Fee: No Prerequisite(s): No

Required Course Materials: All PE courses require that students need tennis shoes and his/her physical education clothing.

Description: Students are required to take 1.5 credits of required physical education during their high school career. Students may only take one semester of "required" physical education a year. All physical education courses are co-ed. Each student is expected to participate and have his/her own physical education clothing. Each student is graded on participation, which also includes written tests and skills tests. Only a doctor's written excuse will exempt a student from participation in physical education classes. This will allow the student an option of a written assignment.

Team Adventure (Emphasis on Team Play): Softball, flag football, ultimate Frisbee, soccer, volleyball,
pickleball, badminton, basketball, speedball, and fitness.
Note: This course is a Graduation Requirement
Course: PE24 Individual \& Dual Lifetime Credit: 0.5 Grade Level: 9-12
Required Course Fee: No Prerequisite(s): No
Required Course Materials: All PE courses require that students need tennis shoes and his/her physical education clothing.

Description: Students are required to take 1.5 credits of required physical education during their high school career. Students may only take one semester of "required" physical education a year. All physical education courses are co-ed. Each student is expected to participate and have his/her own physical education clothing. Each student is graded on participation, which also includes written tests and skills tests. Only a doctor's written excuse will exempt a student from participation in physical education classes. This will allow the student an option of a written assignment.

Individual \& Dual Lifetime (Emphasis on Individual Play): Disc golf, tennis, speedball, team building, pickleball, badminton, volleyball, recreational games, snowshoe/cross country skiing, and fitness.

Note: This course is a Graduation Requirement

## Course: PE25 Aerobics \& Individual Lifetime Credit: 0.5 Grade Level: 9-12

## Required Course Fee: No Prerequisite(s): No

Required Course Materials: All PE courses require that students need tennis shoes and his/her physical education clothing.

Description: Students are required to take 1.5 credits of required physical education during their high school career. Students may only take one semester of "required" physical education a year. All physical education courses are co-ed. Each student is expected to participate and have his/her own physical education clothing. Each student is graded on participation, which also includes written tests and skills tests. Only a doctor's written excuse will exempt a student from participation in physical education classes. This will allow the student an option of a written assignment.

Aerobics \& Individual Lifetime (Emphasis on Aerobic Activities): Team building, archery, golf, lawn games, aerobic walk, step aerobics, aerobic kickboxing, Pilates, yoga, relaxation techniques/stretching, recreational games, and fitness.

Note: This course is a Graduation Requirement

# Work Based Learning \& Youth Apprenticeship 

Earn elective credits while you work! Through Work Based Learning and Youth Apprenticeship, qualifying students are able to do just that. This tool of career exploration will give students hands-on experiences in the real world. Work Experience allows sophomores, juniors and seniors to earn credits while they are working. Youth Apprenticeship is a prestigious program where juniors and seniors earn a certificate through the state of Wisconsin in a specific pathway. This program is for students who have taken 2 more classes in that pathway and will complete related work competencies so they are proficient and prepared for the workforce. In addition to earning a state certification, students may gain advanced standing in post secondary education as well as be considered highly employable with this credential.

## Is This You?

It am entrepreneurial I lave SI EM classes' I am a team player I enjoy hands-on work

## Career Opportunities:

Chef, Metallurgist, Computer Programmer, Accountant, Veterinarian, Mechanic, Nurse, endless opportunities!

## Course: CAR05.S1 \& CAR05.S2 Work Experience

Credit: 0.5 credit for every 90 hours worked - up to 2 credits per semester
Grade Level: 10-12 Required Course Fee: No Prerequisite(s): No
Description: Get credit for learning on the job while you complete exercises on working with others, being on time to work, job search, working for a supervisor, dressing for the job, following safety instructions, honesty on the job, knowing your strengths and weaknesses and making independent decisions. You will keep a daily work log. Students enrolled in this class must be enrolled in a minimum of 6 academic credits per semester and may be scheduled for no more than 1 period of job release time per day.

Course: YA02 State Certified Youth Apprenticeship
Credit: 0.5 credit for every 90 hours worked - up to 2 credits per semester
Grade Level: 11-12 Required Course Fee: No
Prerequisite(s): Career and Technical Education Enrollment, Attend Meeting, Talk with CTE Coordinator

Corequisite(s): Student must take 2 courses in the same pathway as employment
Description: Youth Apprenticeship (YA) integrates school-based and work-based learning to instruct students in employability and occupational skills defined by Wisconsin industries. Local programs provide training based on statewide youth apprenticeship curriculum guidelines, endorsed by business and industry. Students are instructed by qualified teachers and skilled worksite mentors. Students are simultaneously enrolled in academic classes to meet high school graduation requirements, in 2 youth apprenticeship related instruction class, and are employed by a participating employer under the supervision of a skilled mentor.
This program allows Juniors to work 1-2 class periods a day and Seniors 1-3 class periods a day. Goals are typically set cooperatively by the student and employer. YA Level 1 (1 year): Juniors or Seniors are required to work 450 hours of work-based learning MINIMUM 2 semesters of related classroom. YA Level 2 (2 year): Juniors or Seniors are required to work 900 hours of work-based learning MINIMUM 4 semesters of related classroom.

Course: TA01 Teachers Assistant Credit: 0.5 Grade Level: 11 \& 12 Required Course Fee: No
Prerequisite(s): Junior/Senior Status and must have successfully completed 3 years of study in the subject area and/or demonstrated a high level of academic proficiency ("A" or consensus of advisors)

Description: Teacher Assistantships. As a teacher assistant, a student will assist in teaching a particular subject but also have a chance to branch out and try a new project in that field of study. All students participating in this opportunity will be signing a confidentiality form and a teacher assistant agreement.

## Science

You will need 3 credits of science during your time at WHS. You will be required to take Biology and Chemistry. After you've completed these courses it's up to you and your interests to decide what's next. Some of your options are Physics or AP Physics if you are interested in the energy and forces that surround us. If you enjoyed Biology you might want to take Ecology, AP Biology, or Anatomy \& Physiology. If Chemistry was more up your alley you might consider taking AP Chemistry. Science courses are designed to foster your critical thinking skills and ignite your curiosity about the world around you.

Career Opportunities:
Biologist, Marine Biologist, Natural
Resources, Forester, Chemist
Potential to Earn:

## Course Work in this Career Pathway

DC - Dual Credit AP - Advanced Placement

## Science

## Course Descriptions

(These courses apply toward required credits)

Course: SCI01.S1 \& SCI01.S2 Biology Credit: 1.0 (Course is a full year course -0.5 per semester)
Grade Level: 9-10 Required Course Fee: No Prerequisite(s): No
Corequisite(s): You must take both semesters
Description: Students study the structures, functions, and processes of living organisms and their interactions with the environment. Major themes include cell structure and specialization, energy and chemistry of life, genetics and evolution, diversity of life, plant systems, and ecology. Students learn complex biological concepts through lectures and applications, and knowledge is assessed through quizzes, tests and projects.

Course: SCI04.S1 \& SCI04.S2 Chemistry I Credit: 1.0 (Course is a full year course - 0.5 per semester)
Grade Level: 10-12 Required Course Fee: No
Prerequisite(s): Biology Corequisite(s): You must take both semesters.
Description: Chemistry is the study of matter and the changes it undergoes in chemical reactions. This course will study theory and mathematical applications of the principles of chemistry. This course is designed for students going on to college.

Course: SCI05.S1 \& SCI05.S2 Anatomy/Physiology Credit: 1.0 (Course is a full year course - 0.5 Grade Level: 11-12 Required Course Fee: No

Prerequisite(s): Biology (SCI01.S1 \& SCI01.S2) Corequisite(s): You must take both semesters
Description: Anatomy/Physiology is an in-depth look at the inner workings of the human body. This course examines nerves, muscles, hormones, respiration and the cardiovascular system, all with an emphasis on medical and practical application of knowledge. This is an advanced biology course for students interested in the human body.

Course: SCI07.S1 \& SCI07.S2 Physics Credit: 1.0 (Course is a full year course - 0.5 per semester)
Grade Level: 11-12 Required Course Fee: No
Prerequisite(s): No Corequisite(s): You must take both semesters
Description: Physics is the study of the relationship between matter and energy. Introduction to the concepts and techniques of physics includes mechanics, waves, and electricity. A solid mathematics background is recommended for students enrolling in this course.

Course: SCI36.S1 \& SCI36.S2 Ecology
Credit: 1.0 (Course is a full year course -0.5 per semester)
Grade Level: 11-12 Required Course Fee: No
Prerequisite(s): Biology (SCI01.S1 \& SCI01.S2) Corequisite(s): You must take both semesters

Description: This course focuses on the interrelationships between organisms, humans, and the environment. Basic ecological principles and their application to environmental problems are the focus of this course. Examples of topics covered include: relationships in ecosystems, energy movements in organisms and ecosystems, populations, use of natural resources, human sustainability, and environmental decision making.

Course: SCI42.S1 \& SCI42.S2 AP Physics Credit: 1.0 (Course is a full year course -0.5 per semester)
Grade Level: 11-12 Required Course Fee: No
Prerequisite(s): Algebra II (MAT37.S1 \& MAT37.S2) Corequisite(s): You must take both semesters

Description: AP Physics is the equivalent to a first-semester course in algebra-based physics. The course covers Newtonian mechanics (including rotational dynamics and angular momentum); work, energy, and power; and mechanical waves and sound. It will also include electric circuits.

Note: Advanced Placement - College credit can be earned by passing AP exam in May
Course: SCl25.S1 \& SCl25.S2 AP Biology Credit: 1.0 (Course is a full year course -0.5 per semester)
Grade Level: 12 Required Course Fee: No
Prerequisite(s): 2 credits of science: Biology and Chemistry
Description: This course is designed to be the equivalent of a two-semester college introductory biology course usually taken by biology majors during their first year. AP Biology includes those topics covered in a college biology course for biology majors. Being a college-level course, it differs from other high school science courses in the depth and range of topics covered, the type of laboratory work done, the kind of textbook used, and the time and effort required by students. Students should expect a more rigorous curriculum, a larger time requirement, and much more independent study than a typical high school science course.

Note: Advanced Placement - College credit can be earned by passing AP exam in May
Course: SCI33.S1 \& SCI33.S2 Physics II Credit: 1.0 (Course is a full year course - 0.5 per semester)
Grade Level: 12 Required Course Fee: No
Prerequisite(s): Physics I (SCI07.S1 \& SCI07.S2) or AP Physics I (SCI25.S1 \& SCI25.S2)
Corequisite(s): You must take both semesters
Description: Physics II will expand and build on the concepts that were studied in Physics I or AP Physics. Topics that may be included will be: thermal dynamics, states of matter, waves and energy transfer, optics, electricity, magnetism, atomic and nuclear physics and general and special relativity.

Note: Students taking the course will have the option of taking the AP Physics 2 exam in the spring of the year.

Course: SCI35.S1 \& SCI35.S2 AP Chemistry Credit: 1.0 (Course is a full year course -0.5 per semester)
Grade Level: 12 Required Course Fee: No
Prerequisite(s): Chemistry I (SCI04.S1 \& SCI04.S2)

## Social Studies

The Social Studies offerings at Waupaca High School are amongst the most diverse in the state. We have a full range of AP options including AP US History, AP Human Geography, AP Psychology, and AP European History. We also offer Global Studies at Freshman year, US History to Sophomores, and upperclassman have the options of Economics, Government, Psychology, Sociology, and Ancient Civilizations. You will need 3 credits of Social Studies to graduate. Come explore the world during your time at Waupaca High School!!

## Youth on Board

## Career Opportunities:

## Is This You?

t like reading
It like exploring
It enjoy traveling
I like to learn about people past \& present

Teacher, Psychologist, Social Worker, Police Officer
Potential to Earn: $\geqslant$ Dual Credits

# Course Work in this Career Pathway 

[^3]Corequisite(s): You must take both semesters
Description: AP Chemistry is designed to be the equivalent of a first year college general chemistry course and follows the College Board's AP Chemistry syllabus. As such, the course is suitable only for high school students who exhibit high levels of commitment, motivation and academic maturity. This course presents a rigorous treatment of the following concepts: the nature of matter, gas laws, thermodynamics, stoichiometry, bonding, chemical kinetics, chemical equilibria, and more. This course requires the successful completion of Chemistry 1 and 2 . Any exceptions must receive prior approval. Students are expected to be motivated and spend extra time studying outside of class. The problem-solving strategies obtained during this course will prepare college-bound students for careers in the sciences, medicine, engineering, and other technical areas.

Note: Advanced Placement - College credit can be earned by passing AP exam in May
Course: SCl41 Biotechnology from Plants to Animals Credit: 0.5 Grade Level: 11-12
Required Course Fee: Yes
Prerequisite(s): Agriscience 1 (AGR21) or Agriscience 2 (AGR20); Biology (SCI01.S1 \& SCI01.S2) and Chemistry (SCI04.S1 \& SCIO4.S2)

Description: Explore the cutting-edge field of biotechnology and its diverse applications in environmental science with our comprehensive course. From the historical development of recombinant DNA technology to the latest advancements in CRISPR-Cas9 and synthetic biology, this course provides a thorough understanding of biotechnological principles and techniques. Engage in hands-on laboratory exercises, collaborative projects, and discussions that bridge theoretical knowledge with practical applications. This course fosters critical thinking, problem-solving skills, and ethical considerations essential for navigating the dynamic and multifaceted field of biotechnology in the context of environmental applications.

Join us on an exciting journey into the world of biotechnology, where innovation meets sustainability, and scientific discoveries contribute to addressing global challenges.

Note: This class will be offered in alternating years beginning in 2022-2023; don't miss out on your opportunity!

## Social Studies Course Descriptions

(These courses apply toward required credits)

Course: SOC11.S1 \& SOC11.S2 Global Studies Credit: 1.0 (Course is a full year course - 0.5 per semester)
Grade Level: 9 Required Course Fee: No
Prerequisite(s): No Corequisite(s): You must take both semesters
Description: Global Studies is a course that will study the earth, its people, their cultures, and the countries that they create. In this course students will examine different regions of the world through their geography, recent history, political structure, role in the global economy and the importance of their respective cultures. The goal of this course is to make students more aware, global citizens.

Course: SOC23.S1 \& SOC23.S2 AP Human Geography Credit: 1.0 (This is a full year course - 0.5 per semester)

## Grade Level: 9 Required Course Fee: No

Prerequisite(s): No Corequisite(s): You must take both semesters
Description: AP Students in a Social Studies class must be willing to:

- Work independently on materials outside of class time
- Manage time efficiently
- Engage and participate in college level reading, writing, and discussion

AP Human Geography introduces high school students to college-level introductory human geography or cultural geography. The content is presented thematically rather than regionally and is organized around the discipline's main subfields: economic geography, cultural geography, political geography, and urban geography. The approach is spatial and problem oriented. Case studies are drawn from all world regions, with an emphasis on understanding the world in which we live today. Historical information serves to enrich analysis of the impacts of phenomena such as globalization, colonialism, and human-environment relationships on places, regions, cultural landscapes, and patterns of interaction.

Note: Advanced Placement - College credit can be earned by passing AP exam in May
Course: SOC05.S1 \& SOC05.S2 US History Credit: 1.0 (Course is a full year course - 0.5 per semester)
Grade Level: 10 Required Course Fee: No
Prerequisite(s): No Corequisite(s): You must take both semesters
Description: U.S. History is a required course at the sophomore level. The course begins with events leading to U.S. Civil War and continues to present times.

Course: SOC04.S1 \& SOC04.S2 AP US History Credit: 1.0 (Course is a full year course - 0.5 per semester)
Grade Level: 10-12 Required Course Fee: No
Prerequisite(s): No Corequisite(s): You must take both semesters
Description: AP Students in a Social Studies class must be willing to:

- Work independently on materials outside of class time
- Manage time efficiently
- Engage and participate in college level reading, writing, and discussion

Coverage of American history from colonial settlement to the present. The course is designed to provide students with the analytical skills and factual knowledge necessary to prepare them for intermediate and advanced college level history courses. This course is taught at a college level using a college textbook and more advanced reading material. There is a heavy emphasis placed on writing essays in preparation for the comprehensive AP test offered in May. Students should expect a heavier workload than most social studies classes and be prepared to take on a fast paced and challenging course.

Note: Advanced Placement - College credit can be earned by passing AP exam in May
Course: SOC21.S1 \& SOC21.S2 AP European History Credit: 1.0 (Course is a full year course 0.5 per semester)

Grade Level: 11-12 Required Course Fee: No
Prerequisite(s): No Corequisite(s): You must take both semesters
Description: AP Students in a Social Studies class must be willing to:

- Work independently on materials outside of class time
- Manage time efficiently
- Engage and participate in college level reading, writing, and discussion

AP European History is an introductory college-level European history course. Students cultivate their understanding of European history through analyzing historical sources and learning to make connections and craft historical arguments as they explore concepts like interaction of Europe and the world; economic and commercial developments; cultural and intellectual developments; states and other institutions of power; social organization and development; national and European identity; and technological and scientific innovation.

Note: Advanced Placement - College credit can be earned by passing AP exam in May

## Course: SOC06 Economics Credit: 0.5 Grade Level: 11-12 Required Course Fee: No

Prerequisite(s): No
Description: This course emphasizes analysis of the American economic systems. Specific units will cover issues such as the law of supply and demand, factors of production business cycles, money and banking, monetary and fiscal policy, international trade and comparative economic systems.

Course: SOC07 Sociology Credit: 0.5 Grade Level: 11-12 Required Course Fee: No
Prerequisite(s): No
Description: Sociology is the study of relationships, social institutions, and society. It offers us exciting new ways to better understand ourselves as we examine how the social world influences the way we think, feel, and act.
Course: SOC08 Psychology Credit: 0.5 Grade Level: 11-12 Required Course Fee: No
Prerequisite(s): No

Description: This course covers the basic principles that govern psychology. These include the brain,
memory/thought, perception, disorders, and dreams. We will explore how the human mind functions, as well as practically apply these principles in a number of projects and papers over the course of the semester.

## Course: SOC09.S1 \& SOC09.S2 Government Credit: 1.0 (Course is a full year course - 0.5 per semester) <br> Grade Level: 11-12 Required Course Fee: No Prerequisite(s): No

Corequisite(s): You must take both semesters
Description: Government covers a survey of American political growth. Students will study the functions of the federal, state, and local governments and how they make people more responsible citizens.

Course: SOC91.S1 \& SOC91.S2 AP Psychology Credit: 1.0 (Course is a full year course - 0.5 per semester)
Grade Level: 11-12 Required Course Fee: No
Prerequisite(s): No Corequisite(s): You must take both semesters
Description: AP Students in a Social Studies class must be willing to:

- Work independently on materials outside of class time
- Manage time efficiently
- Engage and participate in college level reading, writing, and discussion

Course introduces students to the systematic and scientific study of human behavior and mental processes. While considering the psychologists and studies that have shaped the field, students explore and apply psychological theories, key concepts, and phenomena associated with such topics as the biological bases of behavior, sensation and perception, learning and cognition, motivation, developmental psychology, testing and individual differences, treatment of abnormal behavior, and social psychology. Throughout the course, students employ psychological research methods, including ethical considerations, as they use the scientific method, analyze bias, evaluate claims and evidence, and effectively communicate ideas.

Note: Advanced Placement - College credit can be earned by passing AP exam in May
Course: SOC24 Ancient Civilization Credit: 0.5 Grade Level: 11-12
Required Course Fee: No Prerequisite(s): No Corequisite(s): You must take both semesters
Description: Ancient Civilizations is a survey course covering the main civilizations of Europe, Africa, and Asia. This course examines the history of the Ancient World from the Dawn of Man to 1350 AD. The focus of study will emphasize aspects of geography, anthropology, and social history.

## Construction

## Technology Education

Construction Pathway: Employees in construction literally build our future! These are the people who build and remodel houses, apartments, industrial buildings, warehouses, office buildings, churches, schools and recreational facilities. This pathway also includes the builders of highways, streets, bridges, tunnels and airports as well as power plants, chemical plants, refineries and mills.

## Career Opportunities:

Furniture makers, assemblers, cabinet makers, electricians, plumbers, project managers, drafters, inspectors, architect,

## Is This You?

## Technology Education

Course Descriptions
(These courses can apply toward elective credit requirement)

## Course: TEC37 Air Cooled Engine Technology Credit: 0.5 Grade Level: 9-12

Required Course Fee: No Prerequisite(s): No
Description: Ever wonder how that small air cooled engine functions to cut your grass or blow snow during the winter months? This fast-paced, hands-on class will give students an introduction to the internal workings of air cooled four cycle and two cycle small engines. Students will learn essential skills such as basic maintenance and troubleshooting all the way up to complete engine teardown, measurement and reassembly. After completing this course students will have an in depth understanding of the systems and interworking of most small air cooled engines, and a building block to further automotive classes.

Course: TEC45 Product Design Skills I Credit: 0.5 Grade Level: 9-12
Required Course Fee: No Prerequisite(s): No
Description: This course is an introduction to Engineering and design using the AutoDesk Inventor software. Students will create 3-D model of parts, assemble parts into a complete machine model and animate their design. Inventor is a 3-D modeling software that is used in many industries. Students who do well in this course can earn credit from Fox Valley Technical College that applies to their Mechanical Design program and may transfer to other programs.

Note: This is a Dual Credit Course with FVTC.
Course: TEC50 Metal Working Foundations Credit: 0.5 Grade Level: 9-12

## Required Course Fee: Yes Prerequisite(s): No

Description: This course is designed to introduce students to many manufacturing processes including multiple welding processes, machine tool operation, and metal cutting beginning with safety instruction. This course will give a well-rounded look at manufacturing and provide a basic understanding for all future high school manufacturing course enrollments. Students who do well in this course can earn credit from Fox Valley Technical College that applies to their Machine Tool, Diesel Mechanics and Pipe trades Pre Apprentice program and may transfer to other programs.

Course: TEC83 Woodworking 101 Credit: 0.5 Grade Level: 9-12

## Required Course Fee: Yes Prerequisite(s): No

Description: Wood and its products are renewable, green, and valuable materials that create jobs and products, and are much in demand by consumers. This introductory class will acquaint the student with the components, designs, and assembly of wood products and allow them to participate in the process of turning a raw material into a usable product.

Note: This is a Dual Credit Course with FVTC.
Course: TEC17 Home Maintenance Credit: 0.5 Grade Level: 10-12
Required Course Fee: No Prerequisite(s): No

Description: This is an essential class for all future homeowners! The Home Maintenance class will emphasize basic repair and maintenance techniques used in and around the home. Topics include simple plumbing, heating and cooling, wiring, insulation, wall and floor covering.

Course: TEC32 MLR 1 (Maintenance and Light Repair) (formerly Automotive Service Fundamentals)
Credit: 1.0 - must be taken within the same year of basic car care to receive FVTC certification
Grade Level: 10-12 Required Course Fee: No Prerequisite(s): No
Description: This fun and challenging dual credit course with FVTC gives students the ability to learn essential automotive skills required of an entry level technician in a dealership quick lube. These skills can easily be transferred to many do it yourself operations on your automobile. Skills will be taught in a hands on auto shop setting how to perform essential maintenance functions such as coolant flushes, transmission flushes, vehicle safety inspections, tire rotations, tire damage repair, mounting and balancing of tires \& wheels, oil lube \& filter changes and so much more. This course is the first step to a satisfying and rewarding career as a professional automotive technician.

Note: When you complete this course with a C or better, you'll earn 4.0 FVTC Transcripted Credits (Auto Maintenance \& Light Repair 1)

Course: TEC33 Automotive System Diagnostics Credit: 0.5 Grade Level: 10-12
Required Course Fee: No Prerequisite(s): No
Description: Want to talk cars at the next level? Then this is the course for you! This course focuses on the development of diagnostic and repair skills in the area of vehicle starting and charging systems, electronic fuel injection, ignition systems and electronic engine management. Students will learn in a hands-on lab setting working on their own vehicle or shop vehicles in some cases. This course will well-prepare a student for entrance into a technical college automotive program or an entry level automotive position in the workplace. This course is the second step to a great paying career in the automotive field.

Course: TEC34 Automotive Brakes, Steering \& Suspension Credit: 0.5 Grade Level: 10-12
Required Course Fee: No Prerequisite(s): No
Description: This is where the rubber meets the road! This course provides students with the knowledge and skills required to safely troubleshoot and repair modern vehicle braking systems as well as modern vehicle steering and suspension systems. You will explore the operation and repair of base hydraulic and ABS braking systems, TCS traction control systems, wheel alignment, rack and pinion steering systems, McPherson strut suspensions and so much more. This course is a third step to a rewarding career in the automotive field.

Course: TEC36 Basic Car Care Credit: 0.5 Grade Level: 10-12
Required Course Fee: No Prerequisite(s): No
Description: Keep that prized vehicle on the road longer!!! This is an entry level course designed to meet the needs of all students who want to save money and keep their vehicles looking good and running great for a long time to come. Students will learn and perform basic maintenance and light repair tasks recommended by all major vehicle manufacturers on their own vehicles by performing hands-on tasks. These tasks include oil and filter changes, tire service, cooling system inspections, battery service, interior and exterior care, and much more! No previous mechanical or vehicle
knowledge is required. This course is a must for anyone who plans on owning their own vehicle!
Course: TEC38.S1 \& TEC38.S2 Classic Automotive Restoration
Credit: 0.5 or 1.0 (Can be taken as a semester or year long course) Grade Level: 11-12
Required Course Fee: No Prerequisite(s): Basic Car Care (TEC36)
Description: The focus of this high end auto class is to completely restore a vintage 1960's GM muscle car back to its original state in the timeframe of two years or less. Students enrolled in this course will experience firsthand the processes and acquired skill sets required to perform all aspects of vehicle repair. Specific areas of emphasis will include but not be limited to paint and body work, welding and cutting, and body prep. Students will complete interior work such as carpet installation, upholstery and headliner repair. Mechanical work such as engine machining, transmission rebuilding, and rear differential and axle service will be a vital part of classroom instruction. Other topics will address hydraulic brake repair and vehicle electrical repair. The course will stress evaluation and repair of all systems that make up an operational vehicle. Students will also gain skills in the areas of researching vendors and ordering parts, record keeping and budgeting. Students will gain insight into the importance of meeting deadlines and how to work effectively with subcontractors on a large project.

Course: TEC46 Technology \& Use of Wood Credit: 0.5 Grade Level: 10-12
Required Course Fee: Yes Prerequisite(s): Woodworking 101 (TEC83)
Description: This course will continue the study and use of wood in the construction and manufacturing of consumer goods. The emphasis will be on repeatable parts, tolerance, and the fitting of these parts to produce a product.

Course: TEC51 Introduction to Metals Processes Credit: 0.5 Grade Level: 10-12

## Required Course Fee: Yes Prerequisite(s): No

Description: This beginning level course is designed to develop basic skills and knowledge in metal forming to include the welding process, precision measurement, layout, and machine tool operation. This class would also be valuable to a student wishing to work with art metal and jewelry. Students who do well in this course can earn credit from Fox Valley Technical College that applies to their Welding and Fabrication program and may transfer to other programs.

Note: This is a Dual Credit Course with FVTC.

## Course: TEC54 Machining Credit: 1.0 Grade Level: 10-12 Required Course Fee: No

Prerequisite(s): Metalworking Foundations (TEC50). An alternative path would be through Intro to Metal Processing (TEC51) and Advanced Welding and Fab Production (TEC71)

Description: Machining is the process in which metalworkers remove material to make accurate and useful products. Students taking Machining will learn to use manual and CNC machinery to make working objects. Topics include measurement, lathe, mill, drill, CNC programming, grinding, sawing, print reading, practical geometry, thread forming and basic shop math calculations. Students who successfully meet course requirements may earn 3 credits in FVTC's Machine Tool program.

Note: Must successfully meet course requirements to earn 3 credits in FVTC's Machine Tool program.

Grade Level: 10-12 Required Course Fee: No Prerequisite(s): No
Description: Unless you build your own business, the largest investment you make will be your home. Being able to choose a design that fits your lifestyle will make life more enjoyable and rewarding. This course will teach the student the basic parts of a home, how it is put together, and how the rooms and space can be used to the best advantage. This course will also allow students to design a tiny home using Auto CAD software then build a smaller scale 3D model out of wood of their house design.

Course: TEC70 Gas Metal Arc Welding Techniques 1 Credit: 1.0 Grade Level: 11-12
Required Course Fee: Yes Prerequisite(s): Introduction to Metals Processes (TEC51) \& Metalworking Foundations (TEC50)

Description: Demonstrates welding on steel sheet metals and plates. Emphasis is placed on axial spray, pulse spray and short circuit mode of transfer. Upon completion of this course, the student will be able to weld in all positions, read basic weld symbols, and have an understanding of written welding procedures. Students can earn two credits at FVTC by maintaining a B average in the class.

Note: Must pass this course with a "C" to earn 2.0 FVTC Transcripted Credit (Gas Metal Arc Welding Techniquest 1)

Course: TEC18 Engineering Drawing/AutoCAD Credit: 0.5
Grade Level: 11-12 Required Course Fee: No Prerequisite(s): No
Description: This is an introductory course for computer-assisted drafting. Students will become familiar with the symbols and commands of AutoCAD software by using a personal computer. Students will be made aware of what is involved using a CAD system and what industry expects from a CAD operator in the area of mechanical design. Students who do well in this course can earn credit from Fox Valley Technical College that applies to their Mechanical Design program and may transfer to other programs.

Note: This is a Dual Credit Course with FVTC.
Course: TEC61 Architectural Design II Credit: 0.5 Grade Level: 11-12
Required Course Fee: No Prerequisite(s): Architectural Design I (TEC51)
Description: This course is a continuation of the first semester class and will further develop the ideas of home design, layout, and use. This section of the program includes the construction of a 3D model of the student's home, construction and testing of architectural components, and the remodeling and expansion of an existing structure

Course: TEC71 Advanced Welding \& Fabrication Product Development
Credit: 0.5 Grade Level: 11-12 Required Course Fee: Yes
Prerequisite(s): Introduction to Metals Processes (TEC51)
Description: Encounter real life welding and fabrication problems with the emphasis on product design and communication in the trades. Use your welding, machining and print reading skills along with CNC technology to solve real life metal fabrication and Machining problems.

Note: Students who do well in this course can earn credit from Fox Valley Technical College that applies to their Welding and Fabrication program.

Course: TEC81.S1 \& TEC81.S2 Residential Building Construction
Credit: 1.0 or 2.0 (Can be taken as a semester or year long course) Grade Level: 11-12
Required Course Fee: No
Prerequisite(s): Woodworking 101 (TEC83) or Home Maintenance (TEC17)
Corequisite(s): You must take both semesters
Description: Learn skills that you can use in future employment. Study topics and develop skills in the areas of: rough framing techniques; floor, wall, and roof framing; siding; roofing; electrical wiring; plumbing rough in; door and window installation.

## Theater Arts

Are you interested in exploring the world of drama? Through participation in theatre arts classes, you will gain confidence when performing in front of your peers. The introduction to Drama class allows you to experience units in stage combat, storytelling, pantomime, and acting scenes and monologues. The Advanced Drama class focuses on production. Both courses emphasize improvisation skills, which is acting in the moment. These "quick thinking" skills encourage creativity and mental flexibility, skills needed in all jobs and aspects of life.

ALL SCHOOL PLAY
Career Opportunities:

## Theater Arts Course Descriptions

(These courses can apply toward elective credit requirement)

Course: FAR01.S1 \& FAR01.S2 Drama Credit: 0.5 or 1.0 (Can be taken as a semester or year long course)
Grade Level: 9-12 Required Course Fee: No Prerequisite(s): No
Description: Students enrolling in drama study all aspects of drama including stage combat, make-up, directing, acting, lighting, costuming, oral interpretation, improvisation, dramatic literature and script analysis. Because the content of the class changes yearly, students may enroll in this class for a maximum of two years, and receive the appropriate credits. Sign-up may be for the entire year or for a given semester.

Course: FAR02.S1 \& FAR02.S2 Advanced Drama Credit: 1.0 (Course is a full year course - 0.5 per semester)
Grade Level: 10-12 Required Course Fee: No Prerequisite(s): Drama and/or by Audition
Corequisite(s): You must take both semesters
Description: Advanced Drama takes a more in-depth and creative approach to acting, directing and producing a play. Students in this class choose, perform, and direct plays. In addition to presenting plays, the students study playwrights, view professional productions and direct or act in the senior directing projects. Because the content of the class changes yearly, students may enroll in this class more than one time, and receive the appropriate credits.

## World Languages

Earn elective credits while you work! Through Work Experience and Youth Apprenticeship, qualifying students are able to do just that.

This tool of career exploration will give students hands-on experiences in the real world. Work Experience allows sophomores, juniors and seniors to earn credits while they are working. Youth Apprenticeship is a prestigious program where juniors and seniors earn a certificate through the state of Wisconsin in a specific pathway. This program is for students who have taken 2 more classes in that pathway and will complete related work competencies so they are proficient and prepared for the workforce. In addition to earning a state certification, students may gain advanced standing in post secondary education as well as be considered highly employable with this credential.

Career Opportunities:
International Business, Translator, Travel
Guide, Military, Nursing
German Club
Spanish Club

## Is This You?

Potential to Earn:

# Course Work in this Career Pathway 

# World Language <br> Course Descriptions <br> (These courses can apply toward elective credit requirement) 

Course: FOR01.S1 \& FOR.S2 German I Credit: 1.0 (Course is a full year course -0.5 per semester)
Grade Level: 9-12 Required Course Fee: No Prerequisite(s): No
Corequisite(s): You must take both semesters
Description: German I is an introductory course for German. Most students beginning German have not had a language course before; therefore, German will teach the student how to study, and learn a foreign language. The course will emphasize the basic beginning grammar of the German language; the necessary vocabulary to have small conversations in German; the origin and development of German, the culture of Germany, the people of the country. German I students will have a clear picture of German arts, music, food, customs, and geography. The course will teach approximately 800 German words. Videos, slides, tapes, dialogs, discussions, and songs all contribute to the student's learning of German. Students will explore and produce a family tree.

Course: FOR06.S1 \& FOR06.S2 Spanish I Credit: 1.0 (Course is a full year course -0.5 per semester)
Grade Level: 9-12 Required Course Fee: No Prerequisite(s): No
Corequisite(s): You must take both semesters
Description: Spanish I is an introduction to the Spanish language. Most students beginning Spanish have not had a language course before. Students will therefore learn various study strategies to help them learn the Spanish language. The course will emphasize pronunciation, basic grammar and vocabulary. Students will also be exposed to various aspects of Spanish and Latin American cultures.

Course: FOR07.S1 \& FOR07.S2 Spanish II
Credit: 1.0 (Course is a full year course -0.5 per semester)
Grade Level: 10-12 Required Course Fee: No Prerequisite(s): Spanish I (FOR06.S1 \& FOR06.S2)
Corequisite(s): You must take both semesters
Description: Spanish II reinforces and adds to the vocabulary and grammar skills learned in Spanish I. Students will continue to strengthen communication skills by listening, speaking, reading and writing in Spanish. Students learn through dialogues, short stories, music, lectures, communicative activities, and original skits. Students continue to learn more about Spanish and Latin American cultures.

Course: FOR02.S1 \& FOR02.S2 German II Credit: 1.0 (Course is a full year course -0.5 per semester)
Grade Level: 10-12 Required Course Fee: No Prerequisite(s): German I (FOR01.S1 \&
Corequisite(s): You must take both semesters
Description: German II students will increase their knowledge of German grammar and vocabulary through short readings, translations, and stories. The class will highlight certain major cities and tourist areas, as well as some history, and culture. Students will increase their vocabulary to approximately 2000 words, phrases, and verbs. Students will learn to use and understand authentic materials from Germany, such as bus schedules, train schedules, movie ticket information, and travel resources. Students will design a German house.

Course: FOR03.S1 \& FOR03.S2 German III Credit: 1.0 (Course is a full year course - 0.5 per semester)
Grade Level: 10-12 Required Course Fee: No Prerequisite(s): German II (FOR02.S1 \& FOR02.S2)
Corequisite(s): You must take both semesters
Description: German III students will reach an advanced level of reading and speaking. The class will have some in-depth reading about the culture and history of Germany, as well as other German speaking lands. Students will cover the remainder of German grammar, and increase their working vocabulary to approximately 4000 words, phrases, and verbs. Students will also use their German for everyday usage, and learn the necessary vocabulary for survival in Germany. Students will learn to read German menus, prepare German foods, and survive in a German city. Students will write, prepare, present, and video tape a German commercial.

Course: FOR08.S1 \& FOR08.S2 Spanish III

## Credit: 1.0 (Course is a full year course -0.5 per semester)

Grade Level: 10-12 Required Course Fee: No Prerequisite(s): Spanish II (FOR07.S1 \& FOR07.S2)
Corequisite(s): You must take both semesters
Description: Spanish III emphasizes a more advanced level of writing skills in the target language. Students learn through communicative activities, dialogues, stories, lectures, music, original skits and videos. A more advanced and in-depth study of grammar and vocabulary based on the previous two years is learned. A cultural investigation continues of Spain and various Latin American countries.

Course: FOR04.S1 \& FOR04.S2 German IV Credit: 1.0 (Course is a full year course - 0.5 per semester)
Grade Level: 11-12 Required Course Fee: No Prerequisite(s): German III (FOR03.S1 \& FOR03.S2)
Corequisite(s): You must take both semesters
Description: German IV students are at an advanced level of German, and have completed all German grammar. Some usages will be reviewed in this level, and there will be a great deal of reading comprehension, as well as some translating. Students will be able to function in German on an everyday basis. Students will prepare and present several group and individual projects to the class. Students will be able to have individualized instruction as well as class participation. German IV students will write menus, design festivals, and write a paper in German.

Course: FOR09.S1 \& FOR09.S2 Spanish IV Credit: 1.0 (Course is a full year course -0.5 per semester)
Grade Level: 11-12 Required Course Fee: No Prerequisite(s): Spanish III (FOR08.S1 \&
FOR08.S2)
Corequisite(s): You must take both semesters
Description: Spanish IV students are at an advanced level of Spanish. They are expected to communicate in Spanish during the class. They review Spanish grammar, and students learn the subjunctive and other compound verb tenses. There will be reading of important Spanish and Latin American literature, as well as some advanced translating. Students will prepare and present individual and group projects. Spanish IV students will keep journals for their written compositions and movie critics in Spanish.

Course: FOR05.S1 \& FOR05.S2 German V Credit: 1.0 (Course is a full year course - 0.5 per semester)
Grade Level: 12 Required Course Fee: No Prerequisite(s): German IV (FOR04.S1 \&

FOR04.S2)
Corequisite(s): You must take both semesters
Description: German V is an intensive course featuring development of advanced intermediate conversational skills and reading skills through the study of works of German literature and other appropriate materials.

Course: FOR10.S1 \& FOR10.S2 Spanish V Credit: 1.0 (Course is a full year course -0.5 per semester)
Grade Level: 12 Required Course Fee: No Prerequisite(s): Spanish IV (FOR09.S1 \& FOR09.S2)
Corequisite(s): You must take both semesters
Description: Spanish V students are expected to converse in only Spanish during class. They read authentic literature in Spanish and other appropriate materials. A review of the grammar and vocabulary is continued. Spanish V concentrates on reading, writing and speaking solely in Spanish.

## AP vs. CAPP

Waupaca High School offers an array of opportunities for students to take advanced coursework and potentially earn college credit. Two of these exciting opportunities include AP (Advanced Placement) and CAPP (Cooperative Academic Partnership Program). Because of the similarities in name, AP and CAPP opportunities are often confused. The table below outlines key differences between the two and contains contact information if you/your child has questions.

|  | AP | CAPP |
| :--- | :--- | :--- |
| Supervising body | College Board | UW-Oshkosh |
| Class codes in course catalog: | AP + Course name | UWO Dept. name + three <br> digit course number |
| Courses are offered in: | Multiple subject areas excluding <br> English/Language Arts | Only English/Language Arts |
| Course fees must be paid: | N/A | YES |
| Exam fees must be paid: | YES | N/A |
| Associated fees are paid: | Through Infinite Campus | Through Infinite Campus |
| College credit is based on: | Performance on the AP exam, <br> which requires an exam fee. <br> Students must sign up for the AP <br> exam in the fall | Performance/grade in the |
| Critical communication is <br> sent via email from | Infinite Campus Messenger/Mrs. <br> Bank | CAPP teacher/UW-Oshkosh |
| Course may be taken for high <br> school credit only: <br> setup questions should be <br> directed to | Yes, but discouraged <br> Courses are open to: | Students of any grade level <br> most efficient) |
| Junior and seniors |  |  |
| Yes, but discouraged |  |  |
| htps://uwosh.edu/capp/ |  |  |

Questions about your/your child's CAPP classes should be directed to the CAPP teacher.
Questions about your/your child's AP classes should be directed to the AP teacher.
Questions about your/your child's AP exam(s) should be directed to the AP Coordinator (Mrs. Bank, jbank@waupacaschools.org).

## Advanced Course Options

At Waupaca High School, our mission is to "develop our students' capabilities to achieve their dreams and make the world a better place..." In order for us to achieve this mission, we strive to connect student's specific academic, career, and personal needs with our robust offering of educational opportunities. With every student, we work to create a graduation plan of study that best prepares them to succeed in their post high school graduation goal. Creating a graduation plan, which is also referred to as an Academic and Career Plan (ACP), requires the careful alignment of graduation requirements and career related courses. Because many career related courses provide students with the opportunity to earn college credit or industry recognized certifications, there are costs associated with most of these advanced courses.

The purpose of this document is to inform students and families of the advanced course options and any associated costs that your student has selected for the upcoming school year. Page 2 is a summary of the courses your student has signed up to take and any associated costs. Explanation of courses and programs begin on page 3. If you have any questions about these courses and/or their costs, please contact your student's counselor: Bill Storck (last names A-L) or Jeff Dolski (last names M-Z) at 258-4131.

## Advanced Course Options

## Student Name:

| Course Number \& Name | Course Provider | Method of Course <br> (ex: at WHS in person, <br> online, at UWSP, etc.) | Course Start <br> Date | Course <br> Completion <br> Date | Course Costs \& Due Dates |
| :--- | :--- | :--- | :--- | :--- | :--- |
| Ex: ENG08 <br> Communications 111 | WHS via CAPP | At WHS in-person | $9 / 1 / 24$ | $1 / 20 / 25$ | $\$ 400$ due within 15 days of course start date |
| Ex: AP Macroeconomics | Rural Virtual <br> Academy | Online via the Rural Virtual <br> Academy | $9 / 1 / 24$ | $1 / 20 / 25$ | $\$ 0$ provided the student successfully completes the <br> course by course completion date, \$250 otherwise |

## Advanced Course Options

To assist students and families with understanding advanced course options and their associated costs, the remainder of this document is broken down into the following sections:

- Courses Offered at Waupaca High School
- Courses Not Offered at Waupaca High School

## COURSES OFFERED at WAUPACA HIGH SCHOOL

Page 3 of the WHS Course Offerings Catalog (found on the WHS webpage/Student Services/Scheduling/Course Catalog \& Flow Charts) lists current AP, CAPP, and Dual Credit courses offered at Waupaca High School. While this comprehensive list meets the needs of most students, this is not an exhaustive list of every advanced course option available to our students. Based on a student's Academic and Career Plan, other advanced course options may be available. Students must work with their counselor on enrolling in the most appropriate courses.

- AP Courses: AP, or Advanced Placement courses are offered in a variety of departments at WHS, excluding our English/Language Arts department (because we offer CAAP ELA courses).
- There is no fee for a student to participate in an AP course, but students must pay to take the AP exam if they desire to earn college credit. While taking the AP exam is not required, we strongly encourage all students enrolled in an AP course to take the exam. Students who pass the AP exam earn college credit. Please see the AP vs. CAPP document for more information.
- Students who qualify for free/reduced lunch and fill out the additional fee waiver request form pay $\$ 0.00$ for the exam and are only responsible for late fees or cancellation fees.
- Final grades will be provided by the course instructor and will be factored into the student's G.P.A.
- CAPP Courses: CAPP, or Cooperative Academic Partnership Program courses, are offered in our English/Language Arts department.
- While a student may participate in a CAPP course for high school credit only, those who enroll in UW-Oshkosh through the CAPP program will also be eligible to earn college credit. The cost for CAPP course credits is set by UW-Oshkosh annually; a portion of this fee is paid by the school district, while the student/family is responsible for rest and any additional costs (i.e., textbooks). Please see the AP vs. CAPP document for more information.
- Students who qualify for free/reduced lunch and fill out the additional fee waiver request form are eligible for a reduction in their course fee and are responsible for late fees or cancellation fees.
- Final grades will be provided by the course instructor and will be factored into the student's G.P.A.
- Dual Credit Courses: Dual Credit courses provide students with the opportunity to earn technical college credits in a variety of departments at WHS.
- The WHS Course Offerings Catalog provides course specific information regarding each dual credit course.
- Most Dual Credit courses are free for WHS students.
- Final grades will be provided by the course instructor and will be factored into the student's G.P.A.
- Online Learning: The School District of Waupaca partners with the Rural Virtual Academy to provide students with online learning opportunities in a variety of content areas.
- To learn more about online learning options, students should review the Online Learning section of the WHS Course Offerings Catalog and speak with their counselor.
- Final grades will be provided by the course instructor and will be factored into the student's G.P.A., with the exception of OdysseyWare courses which will be graded on a Pass/Fail option (Pass/Fail courses do not impact a student's G.P.A.).

## COURSES NOT OFFERED at WAUPACA HIGH SCHOOL

While we strive to connect student's specific academic, career, and personal needs with our robust offering of courses offered at Waupaca High School, we also know that to best meet the after high school plans of every student, we sometimes need to partner with colleges and universities. When matching students' Academic and Career Plans (ACP) with our course offerings, we sometimes recommend students participate in college or university level courses at nearby college or university campuses. Depending on the student's ACP, we may recommend students participate in the Early College Credit Program (participation at a University of WI System institution, e.g., UW - Stevens Point) or the Start College Now program (participation at a WI Technical College, e.g., FVTC). Successful participation in

- Course participation fees for Early College Credit or Start College Now courses are generally paid for by the School District of Waupaca. For more information about these programs, please refer to the Early College Credit/Start College Now section of the WHS Course Offerings Catalog and speak with a counselor.

## Early College Credit Program (ECCP) and Start College Now (SCN)

Meeting the Academic and Career Planning needs of all students sometimes requires that students be enrolled simultaneously in both high school and college or university courses to earn both high school and college credit. Such programs make college more affordable for families and introduce students to higher level coursework before they immerse themselves in college life. For a detailed understanding of these programs, please review the Early College Credit Program and Start College Now webpages. Additional information can also be found within the School District of Waupaca Board of education policies:

- po2271.01 Technical College Course Program (Start College Now)
- 343.45 R1 Technical College Course Program (Start College Now)
- po2271 Early College Credit Program
- 343.46 R1 Early College Credit Program

## Early College Credit Program (ECCP) and Start College Now (SCN) Procedures

1. Student meets with their counselor and completes the ECCP or SCN request form. This also includes paperwork for the distance learning courses.
2. Student requests submitted to the Student Services Secretary by October 1 for consideration for the following spring semester and March 1 for consideration for the following fall semester. The Student Services Secretary will enter all ECCP and SCN requests into an internally shared spreadsheet.
3. By October 8 or March 8 of the request deadline, a ECCP/SCN request approval meeting will happen involving the WHS Principal, WHS Counselors, and the School District of Waupaca (SDW) Director of Teaching and Learning. Students and families will be notified of the decisions reached during this meeting within 7 days.
4. By October 31 or March 31, all approved request forms will be sent to the appropriate institutions of higher education by the Student Services Secretary.
5. Institutions of higher education schedule students and return paperwork to students. Students must share the schedule they receive from the institution of higher education with their counselor as soon as they receive it. This is a critical step to ensure the student schedule meets graduation requirements.
a. Counselor and student review institute of higher education recommended schedule to see:
i. If the old and new requests/approvals still match
6. If an institute of higher of education suggests a different course due to course availability, the "new" course must be approved by the principal
7. Student requested changes must align with original approval in terms of overall number of credits/Academic and Career Plan (ACP)
ii. Student ACP is still accurate/current
iii. The course schedules (WHS and institute of higher education) work/do not contain any course date/time conflicts
iv. Course changes entered into ECCP/SCN spreadsheet
8. Course textbook options
9. Student participates in approved ECCP/SCN course(s).
a. Parents - please know that grades for courses taken at institutes of higher education will only be posted to Waupaca High School transcripts at the end of the course - please work with your child on knowing and getting access to their ECCP/SCN grades.
10. At the completion of the course(s):
a. The student successfully completes the approved course(s):
i. A copy of the course grades is submitted to the Counselor from the institute of higher education for high school transcript transcription
ii. Student may be approved to take additional ECCP/SNC courses
b. The student does not successfully complete the approved course(s):
i. A copy of the course grades is submitted to the Counselor from the institute of higher education for high school transcript transcription
ii. Student will not be approved to take additional ECCP/SNC courses, or other dual enrollment courses offered within WHS
iii. All fees associated with the failed course(s) will be added to the student fees
11. All invoices received from institutes of higher education should be given to the School District of Waupaca Director of Teaching and Learning, who will compare the invoice to the approved courses noted on the ECCP/SCN spreadsheet.

## ECCP/SCN Textbook Options

The following are options when needing a textbook(s) for your ECCP/SCN course(s):

- First, please check in the WHS Library to see if your book is available within WHS.
- If you are taking a course through Fox Valley Technical College, please refer to their Textbook acquisition instructions.
- If your required textbook(s) is not available at WHS, and you are not participating in the course through Fox Valley Technical College, then please choose one of the following textbook purchasing pathways:

| Purchase the textbook(s) yourself | Have the School District of Waupaca Purchase your textbook(s) |
| :---: | :---: |
| - This is best if you want to keep the textbook at the end of the course. <br> - If you desire to be reimbursed for the textbook, provided that it is in good condition, please bring your textbook and original receipt to Mark Flaten, Director of Teaching and Learning, in the District Office. <br> - Reimbursement can take 30-60 days (note reimbursement may not be processed until grade for the course has been posted). <br> Please be sure to shop for the best (lowest) price for your required text. <br> - The same process will apply if you chose to rent your textbook vs purchase it--except you are responsible for returning the book to the place of rental. | - Email Mark Flaten, Director of Teaching and Learning, in the District Office, with textbook details (name, author, edition, url link) to purchase textbook(s). <br> - Please do not wait until the last minute to pursue this option as shipping may add a few days to your request. <br> - Any District purchased textbooks must be returned at the end of the semester to Mark Flaten, Director of Teaching and Learning, in the District Office. <br> - If you do not end up passing the course, or you do not return your textbook, you will be responsible for reimbursing the School District of Waupaca. |

If you have any questions regarding textbooks, please contact: Mark Flaten, Director of Teaching and Learning, in the District Office (mflaten@waupacaschools.org or 715-258-4121).

## Online Learning Options

## ONLINE LEARNING OVERVIEW

Online instruction is a means to enhance or expand current course offerings and to provide an educational alternative better suited to individual learning needs. Online learning generally occurs through either synchronous or asynchronous learning. Synchronous online learning refers to students and instructors gathering at the same time and place (virtual or physical) and interacting in "real-time." Asynchronous learning refers to students accessing materials at their own pace and interacting with each other over longer periods. Either type of online learning requires students to be self-motivated and highly organized.

Currently, our district partners with the Rural Virtual Academy (RVA) to provide students with online course options. In circumstances where a student's ACP course options can not be met with District or RVA course options, the District may partner with other online educational options; this will require prior approval from the Building Principal. Student participation in online courses is limited to two courses/semester and must be directly related to the student's Academic and Career Plan (ACP). Exceptions to the limit of two courses/semester may be considered for students identified as At-Risk, or as approved by Building Administration. Online course participation is not intended to resolve schedule conflicts within a school building.

All RVA online courses are designed to be completed within a semester, or within 4 months from the date of enrollment. Students can expect to spend as many hours completing an online course as they would completing a course in a traditional setting. If applicable, time will be provided to students by assigning an additional study hall to allow for online course participation and completion. However, just as with traditional classes, work may need to be completed outside of school hours.

Attendance in online courses is performance based. It is measured not only by logging into the course but by successful submission of completed assignments, participation in course activities such as discussion, and communication with the online instructor.

Students must complete the course in the allotted time frame/semester, beginning with the online course orientation. Students will only be awarded 0.5 credit for each online course they successfully complete. Grading for RVA courses is based on the RVA grading scale found in the RVA Student Handbook. While regular progress checks will be made by the Learning Center Coordinator and/or RVA Coach and communicated to the student, parent/guardian, and Counselor, students will not receive mid-term or quarterly grades; only final semester grades.

## ONLINE COURSE SUPPORTS

Students taking online courses through the RVA will be provided with a Coach/WHS RVA Coordinator and/or Teacher (who may be a Waupaca staff member or a RVA staff member), and access to the Learning Center provided by Waupaca School District. The Coach/WHS RVA Coordinator may also be a liaison between the student and the online course instructor if problems arise. The District will make every reasonable effort to ensure student success with online courses.

## ONLINE LEARNING COURSE REGISTRATION \& TIMELINES

Students who wish to take an online class must be in good academic standings and must follow traditional course registration timelines. Students interested in participating in an online course must
work directly with school counselors to ensure alignment between requesting courses and students' Academic and Career Plan. School Counselors and/or WHS RVA Coordinator will register the students for approved online courses.

Students will be offered the opportunity to enroll in two(2) online courses per semester. Students must commit to completing any online course taken within the agreed time period, as noted on page 3 of this agreement.

Students participating in RVA courses have 14 days from the start date of a course to determine if they will be successful in the online course environment. Students may also be pulled within the first 14 days of starting a course if they fail to show adequate progress as determined by the School District of Waupaca RVA Coordinator, Waupaca School Counselor, and/or RVA Teachers. Students who drop, fail to complete, discontinue or fail online courses may jeopardize their continued enrollment in online education opportunities.

## ONLINE LEARNING COSTS

The District shall pay the costs associated with student's enrollment in approved online courses if the course is taken for high school credit or if the course is not comparable to a course offered in the District.

The District shall require the student or parent/guardian to reimburse the District for all amounts paid for the course on the student's behalf if:

- A student drops or does not continue a course after the 25th day of starting a course
- Receives a failing grade in the online course
- Fails to complete the course within the specified timeline

If reimbursement is not made upon request, the student is ineligible for any further participation in online courses.

If you have any questions about online learning options, please contact your student's counselor: Bill Stork (last names A-L) or Jeff Dolski (last names M-Z) at 258-4131.
