# Senior Photos **DOs and DON'Ts**

## DO:

Your senior yearbook photo should resemble a version of one of these: Head shot, vertical body composition, looking at the camera. Shots should be in focus and good resolution for print reproduction. **COLOR SHOTS ONLY!**

## DON'T

These are lovely photos, but are not the composition we request for a more uniform yearbook appearance. The body poses cannot be cropped easily for a good yearbook head shot. Your vertical headshot yearbook photo should be able to be placed in the yearbook spread without our staff adjusting it. You should look at the camera.

## DON'T

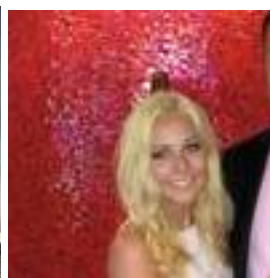

Wear hats, use props, have other people in your photo, wear clothing that has inappropriate messaging on it. No Black-and-white photos. Make sure photo resolution is 300 DPI or greater and photo is in focus.
