

## Waupaca High School Summer 2019 Course Offerings

Dear Parents/Guardians and Students of Waupaca High School,

On the following pages you will find a list of the Waupaca High School Summer (Summer School) course offerings. This year our Summer program will be similar to last summer- we believe in continual learning - so it's our goal that every student will find a Summer Course that they will want to become involved in!

***Similar to last year, we will offer Continuous Progress (CP) Summer Courses. A CP Summer Course will allow a student to earn credit for a course that the student failed during the school year by relearning and redoing just the units of a course that the student failed. For example, if a student failed semester 1 of Geometry because they failed 2 of the 5 units, in the CP Semester 1 Geometry Summer Course, the student would only need to demonstrate proficiency in the 2 units they failed. Once the student completes the assigned work and assessments, the student's Semester 1 Geometry Summer Course is complete and the student receives a passing grade (P) along with course credit. Students can request more than 1 CP course during Summer. IF a student requests more than 1 CP Summer Course, their requests will be reviewed and the student will be scheduled into 1 of their requested CP Summer Courses. Once the student completes their first CP Summer Course, we will then move them into one of their other requested CP Summer Courses.***

To register for a Waupaca High School Summer course, students will need to utilize the same scheduling process that they did for their 2019-2020 courses. Click [here](#) for a step-by-step Summer Course Registration instructions. Course registration will be available to students from April 5th through May 10th. Students will be notified regarding the confirmation of their Waupaca High School Summer Course request(s) no later than June 4th.

If you have any questions about our Waupaca High School Summer Courses and how your child(ren) could benefit from it, please contact our Student Services Office (715-258-4131 ext. 1210) to speak with one of our School Counselors (Mr. *Bill Stork*, School Counselor, Last Names A-L or Mr. *Jeff Dolski*, School Counselor, Last Names M-Z).
